

Alumni News Bulletin

INDIANA UNIVERSITY OF PENNSYLVANIA

INDIANA, PENNSYLVANIA

Spring, 1969

COVER: COGSWELL HALL MUSIC BUILDING

Issued quarterly by the
Indiana
University of Pennsylvania
Indiana, Pennsylvania
Spring, 1969

Editor Samuel F. Furgivelle
Associate Editor Anita Hudson
Executive Secretary Mary L. Esch
President of the University

William W. Hassler

Alumni units and individuals having news for the bulletin are urged to send same to the editors as early as possible. Give the complete details of who, what, when, where, how, and why.

Alumni News Bulletins are published every October, December, March and June, as of the first of the respective months. News deadline for each issue is 30 days prior to the printing date. For example news for the June 1, 1969 issue should be available May 1, 1969.

ALUMNI ASSOCIATION OFFICERS

President—Dr. Arthur F. Nicholson, 1116 Chestnut St., Indiana, Pa.

Vice President—Mrs. Mary Steele Kellar, 708 Grove Ave., Johnstown, Pa.

Secretary—Miss Catherine Taylor, 877 Thorn Ave., Sewickley, Pa.

Executive Secretary-Treasurer—Mary L. Esch, 339 South Sixth St., Indiana, Pa.

ALUMNI NEWS BULLETIN

Indiana University of Pennsylvania
Indiana, Pennsylvania

Council Of Alumni Associations

Summary Of Minutes

The January meeting of the Council of Alumni Associations of the 14 State-owned Institutions of Higher Education in Pennsylvania was held Saturday, January 25, 1969, at the Hotel Harrisburger, Harrisburg, Pennsylvania. Representatives of 12 of the 14 institutions were in attendance. Samuel F. Furgiuele represented Indiana.

Mr. Samuel Furgiuele presented an extensive report on the two successful alumni workshops conducted by Council this past fall and thanked all those committee members who contributed to these workshops. Mr. Furgiuele indicated that approximately 35 people attended the workshop at Lock Haven and 60 at Millersville; all but three State Colleges were represented at one or the other workshops. Mr. Furgiuele made the following recommendations for consideration of Council:

1. To continue the annual workshops.
2. To have one workshop annually instead of three.
3. To have a central location for the workshops.
4. To follow the same general format.
5. To conduct the workshop possibly in late November.

President Young urged each college to pay its dues to Council and to ASCO. A breakdown of expected support to ASCO indicates that the Student Associations would contribute \$8,000; the Faculty Association has not yet indicated the amount of their support; and the respective College Presidents have approved membership in ASCO at \$250 annually.

President Young then asked each representative to indicate the status of support for ASCO from their respective institution: Bloomsburg, California, Cheyney, Edinboro, Millersville, Shippensburg—forthcoming; Clarion, Slippery Rock—unknown and questionable; West Chester—Alumni Association has tabled the question of support for ASCO; Indiana—the present thinking of the alumni association at Indiana is that they will not support or participate in ASCO.

President Young again appealed for more support for activities of Council and ASCO in alumni magazines.

President Young raised the question of restructuring the ASCO directorate. This question was tabled by ASCO at their last meeting. Mr. Furgiuele presented a proposed revision which would afford greater direct representation to ASCO from respective campus organizations. The consensus of the State Alumni Council is that it is time that ASCO "button down" its organization and begin operating with a set of By-Laws and a Constitution. It should be noted that the State Alumni Council is the only organization that had approved ASCO's original proposed By-Laws. The Council recommends that ASCO broaden its base of representation; President Young was directed to represent Council accordingly at the ASCO meeting.

The auditors report was accepted as presented on a Furguele/Ranck motion.

Mr. Don Rich, Communication Services, Inc. presented a brief legislative report on the status of bills affecting the State Colleges.

Mr. Furguele responded to Mr. Rich's comments by summarizing that Indiana University supports the other 13 state institutions, that the new bill would take away some of their benefits; and that Indiana, understandably, does not want to lose what they have gained.

Mr. Wildrick raised the question of need to support the idea of waiving fees for graduate assistants. President Young indicated that the Pennsylvania Association of Colleges and Universities supports this idea as does Council.

President Young reported on Dr. Kurtzman's position on the official recognition of the position of Director of Alumni Affairs at the State Colleges. Dr. Kurtzman is awaiting a report on the restructuring of the administrative set-up at each college along with a new and appropriate salary scale for non-teaching administrators. The position of Director of Alumni Affairs will be included in this report.

Under new business, President Young reported on the question of Student Activity Fees being transmitted to Harrisburg, accounted, and then maybe returned to respective campuses upon request. The State Alumni Council is against any such policy; the Student Activity Fees should remain at and handled by each institution. It was the initial concern of the State Alumni Council that prompted the D.P.I. comptroller's appearing before the Board of Presidents to receive their thinking on such a proposal.

President Young reported briefly on the District II A.A.C. Conference held at the Host Farms in Lancaster this month; he again reminded all representatives that their alumni associations are entitled to A.A.C. membership at college expense effective July 1, 1969.

President Young then asked Council what position we should adopt relative to certain items not included in proposed legislation. The issue and the position of Council are as follows:

1. Travel expenses (for prospective employees)—proper legislation should be introduced to allow the State Colleges to cover these expenses.
2. Federal Funds—the respective institution should be allowed to administer its own funds.
3. Uniform student fees — Council supports this. Also, although Council took no definite position, President Young was instructed to raise the question of having children of any state employee (not only faculty) attend any state college tuition free.
4. Citizenship degree—Council supports the idea of non-citizens receiving a degree from the State Colleges.
5. Type of State Board—Council strongly advocates a **coordinating** board and not a **control** board.
6. Locus of local autonomy—Council advocates a shared autonomy between the president and his board of trustees.

The next meeting was scheduled for Friday and Saturday, April 25-26, 1969, at Camp Hate-To-Leave-It, Lock Haven, Pennsylvania.

Minutes Of Asco Meeting

January 25, 1969

The Executive Committee of the Association of State College Organizations, ASCO, met Saturday, January 25, 1969 at the Harrisburger Hotel, Harrisburg, Pennsylvania. Representatives of all segments of ASCO were in attendance, as were a number of guests, including Samuel F. Furguele of Indiana.

Chairman Keller called for action on the following motion which had been tabled at the September 28, 1968 meeting for further consideration.

"Moved by Mr. Young, seconded by Dr. Keller, that the Directorate of ASCO be broadened to include the elected officers of all constituent state organizations, with each individual entitled to cast one vote at each meeting."

On motion by Mr. Young, seconded by Dr. King, the following motion was adopted.

"The tabled motion be rescinded and that ASCO begin immediately to prepare a new constitution and by-laws, with a broad based directorate consisting of campus and state-organization representatives."

Chairman Keller reviewed the general correspondence received since the previous meeting noting that responses to the 1968-69 budget requests were as follows:

Council of State College Alumni Associations	Accepted
Student Government Association	Accepted
APSCUF	Under Discussion
State College Trustees	No report

Board of Presidents—ASCO has been placed on the approved organization list and each institution may authorize payment of \$250.00 per year upon receiving billing. Letters concerning this matter have been forwarded to the college presidents.

Chairman Keller stressed the need of all supporting organizations meeting their financial commitments in view of the possibility of some organizations withdrawing financial support, due to disagreement with a particular piece of legislation.

Dr. Kermit Stover discussed the position of the State College Trustees Association, noting that it had never been officially affiliated with ASCO. Chairman Keller replied that the trustees had a standing invitation to join at anytime and trusted that their organization would see fit to do so in the future.

Chairman Keller reviewed the activities of ASCO during the November Legislative Session, the problems encountered by pending State College legislation and the correspondence received concerning legislative matters.

Leon Lunn submitted the auditors report for the fiscal period, September 22, 1967 to June 30, 1968.

On motion by Mr. Lunn, seconded by Dr. King the audit was approved.

Following the above action the secretary left the meeting and by general agreement William F. Williams of Communication Services, Inc. continued to act as temporary secretary for the remainder of the meeting.

Chairman Keller reviewed current activities concerning proposed legislation pertaining to the state colleges and noted the following:

1. Representative Gallagher is re-introducing bills originally introduced in May, 1967.
2. Representative Max Homer has put forth a plan whereby the State Colleges would be satellite institutions of the three State-related Universities.
3. P.A.C.U. has written a bill with a strong central board, local boards of trustees advisory, a strong presidents section and included some new sections dealing with graduate assistants compensation, etc.
4. The D.P.I., according to Frank Cashman, has prepared their own bill dealing with a central board and local autonomy.
5. It appeared that Indiana University would be included in any legislation pertaining to the State Colleges.

In conclusion, Chairman Keller stated that it is apparent that some State College legislation will be passed. He suggested that ASCO support a legislative program and present a united front, if its views are to be considered, otherwise it will have little voice in the ultimate legislation.

Chairman Keller asked for expressions from the representative groups and received the following comments:

1. Dr. Kermit Stover, speaking for the State College Trustees Association, stated that the trustees would be in favor of no bill, if the bill that would have resulted from the conference committee was the best they could expect.
2. Mr. Mervin Sneath, West Chester Trustee, requested that ASCO take a position for a "coordinating" board as opposed to a "control" board.

Chairman Keller replied that ASCO had already taken such a position, as evidenced by a memo that accompanied the Conference Committee Bill.

Moved by Dr. Sykes, seconded by Norman King, that a committee be appointed representing all segments of ASCO to confer on a bill for the purpose of obtaining a unified position. Motion carried.

The above committee composed of representatives from the students, alumni, faculty, presidents and trustees of the state colleges, will meet at 6:00 P.M. Friday, February 7, 1969 and the morning of Saturday, the 8th in Room 100 of the Quality Court Motel, Carlisle, Pennsylvania.

Chairman Keller announced that there may be a vacancy on the State Council of Education. Stressing the importance of representation from the State College, he suggested that ASCO have a candidate in mind.

Dr. Sykes presented items of concern to the Board of Presidents and expressed his desire that some, if not all, receive ASCO support.

The items were as follows:

1. Removal of the out-of-state travel restrictions that have been invoked.

2. Opposition to the ruling that all student activity fees be sent to Harrisburg.
3. Waiver of tuition fees for graduate students and faculty children.
4. Liberalized lunch policy for faculty.
5. Development of a system whereby the state colleges and university can receive earlier approval of budgets.
6. A formula for equitable treatment of the state colleges.
7. Pay scale for non-instructional personnel should be flexible, similar to G.S.A. contract scale.
8. Legislation permitting state colleges to exercise more control over who is allowed on the campuses.
9. More opportunities and additional financing for disadvantaged students.
10. Legislation reducing faculty teaching loads to twelve hours.
11. Clarification of proposal that junior and community college students with Associate Degrees must be admitted to a State College.
12. Federal funds to be handled locally.
13. Providing expenses for interviewing prospective employees.

Chairman Keller commented that some of the items would be cleared by the creation of a State Board and asked the ASCO members to review these items, directing their reactions to Dr. Sykes and they would be on the agenda of the next regular meeting.

Dr. King noted that APSCUF was working on the items that pertain to the faculty.

Gary Dologite reported that the students were interested in having the citizenship requirement for graduation removed.

Ed Young stated that the alumni were working on the problem of the Student Activity Fees, travel and interview expenses, federal funds, uniform fees, the waiver of fees for faculty children and the foreign students citizenship requirement.

The next meeting will be held at 1:00 P.M., April 26, 1969 at the Lock Haven State College Camp, "HATE TO LEAVE IT."

Four From Family Attend Indiana

All four of the John S. Otto family of Loyallhanna, Pennsylvania are graduates of Indiana. Interestingly enough, however, the four graduated from three different institutions.

Marian Otto, a teacher of homebound instruction at the Derry Area School District, Derry, Pennsylvania, is a 1932 graduate of the Indiana State Teachers College. John, a teacher of vocational agriculture for Eastern Westmoreland Vo-Tech, graduated from the same school in 1947.

Judith Otto, who presently teaches second grade in the Derry Area Schools, graduated in 1963 from what was then Indiana State College.

A son, Thomas E. Ott, a production clerk for Westinghouse Corporation at Blairsville, Pennsylvania, was a 1968 graduate of the Indiana University of Pennsylvania.

The Ottos are all loyal alumni of Indiana and usually include in their plans a return to their Alma Mater for the annual Homecoming.

Dr. And Mrs. Willis E. Pratt Honored At Testimonial Dinner

Sponsored by the General Alumni Association of Indiana University of Pennsylvania, a testimonial dinner for Dr. Willis E. Pratt, who retired as President of the university on December 31, 1968 and Mrs. Pratt was given at Thomas Sutton Dining Hall on campus Friday, October 11, 1968.

More than 500 persons attended the affair in honor of Dr. and Mrs. Pratt on this occasion. Dr. Pratt, President of the university since 1948, has been designated as Chancellor Emeritus of Indiana by the institution's Board of Trustees effective January 1.

Representative testimonials were presented by eight different persons speaking from as many different viewpoints relative to the different areas of university administration with which Dr. Pratt has been concerned over the past 20 years.

Presenting these testimonials were Dr. John E. Davis, president of the Board of Trustees; Dr. Albert R. Pechan, vice president of the Board of Trustees; Dr. William W. Hassler, Dean of the School of Arts and Sciences and president elect of the university, speaking for the university administration.

The Honorable Edwin M. Clark, President Judge of Indiana County Courts, speaking for the community; Mary Esch, executive secretary of the General Alumni Association; Marshall Flamm, president of the university Faculty Association; Ronald Lunardini, president of Student Government; and Donald McPherson, immediate past president of Student Government.

Samuel F. Furguele, Director of Public Relations at the university, read a U.S. Army Citation to Dr. Pratt which granted him the Army Distinguished Civilian Service Medal.

Presiding at the dinner was Dr. Arthur F. Nicholson, President of the General Alumni Association. Music was provided by the Four Chiefs, a traditional favorite campus quartet. Charles A. Davis, a member of the Department of Music and Music Education faculty, led the Alma Mater, with his wife, Mrs. Clarabel Davis, as pianist.

Rev. Macklyn E. Lindstrom, pastor of the First Methodist Church of Indiana, pronounced the invocation, and Rev. Jerome Weiksner, chaplain to the campus Newman Center (Roman Catholic) gave the benediction.

Preceding the dinner at 5:30, a carillon concert featuring the Alumni Carillon recently installed in the John Sutton Hall Bell Tower by the General Alumni Association, was presented.

Immediately following the dinner a reception for Dr. and Mrs. Pratt was held in the Blue Room of John Sutton Hall by past presidents of Student Government, with all attending the dinner invited to attend.

Since 1948, when he became President, Dr. Pratt has contributed immeasurably to the growth and development of the institution that is Indiana as it has been transformed from state teachers college to state college to university.

Just those 20 short years ago, the then Indiana State Teachers College enrolled not quite 1500 undergraduate students and employed approximately 100 faculty members. The campus at that time comprised only approximately ten of the present principal structures.

At that time exclusively an institution for the training of teachers, Indiana was organized into ten academic departments. Under the imaginative and inspired direction of Dr. Pratt, Indiana has grown from that beginning to the thriving state university it has become.

Enrollment has skyrocketed nearly six times to a present total of approximately 9000 undergraduate and graduate students, and the university now employs nearly 500 faculty members. The Graduate School was organized 11 years ago in 1957, and there are now eight schools within the university.

The seven undergraduate schools are organized into 34 different academic departments offering instruction in more than 40 academic areas. Offering three different bachelor's degrees and master of education, master of arts and master of science degrees, Indiana is now inaugurating two doctoral programs as well.

But in many ways Indiana University of Pennsylvania is still only on the threshold of its most ambitious and spectacular period of development. Added to his outstanding record of achievement, it was the vision of Dr. Pratt which has caused Indiana students, faculty members and alumni to "think big."

Announced in the spring of 1967 was a far reaching Campus Expansion Plan which calls for a total expenditure of \$90 million between now and 1980, this added to the \$40 million already spent over the past several years. And total enrollment in the not too far distant future could well surpass the 20,000 mark.

"Project 70's" Undertaken At IUP To Determine Role In Next Decade

A project to determine the role which Indiana University of Pennsylvania will play during the coming decade has been announced by Dr. William W. Hassler, University president.

Titled "Project 70's," the undertaking embodies three major steps: (1) the clear and thoughtful formulation of Indiana's objectives as a university, (2) a comprehensive self-evaluation of the university's resources, weaknesses, and potential, and (3) approval of the finalized operational philosophy and proposed programs by appropriate university bodies.

In making the announcement, Dr. Hassler pointed out that the main purpose of the project is to reassess IUP's position as an emerging university in order that it might fulfill with maximum effectiveness its role during the 70's.

Elaborating on the first step, Dr. Hassler stated that studies recently conducted at over a hundred leading colleges and universities showed

that the superior college "has a concept of where it is going." With this in mind, he explained, it is important that Indiana determine in which direction it wishes to guide its academic destiny.

To this end, he has asked that an Academic Vision Committee be activated by Dr. Albert J. Wahl, IUP Professor of History, to generate a tentative operational philosophy under which step two can be initiated.

The second step will involve all components of the University, (including trustees, administration, and students), each of which will organize its own task force for the purpose of the self-evaluation.

This will require each department to assess its own strengths, weaknesses and goals for the purpose of formulating the role it feels it can and should play during the 70's.

In turn, departmental programs will be screened and collated by the dean of each school in collaboration with the department chairmen and division coordinators.

Following this, priorities will be established by the Dean of Academic Affairs, who will also supervise the integration of the programs among the various schools.

After stage two has been completed (in approximately a year), programs developed will be submitted to the Academic Visions Committee for their review, so that the ultimate result will be an optimum concept of realistic goals, together with the programs to implement them.

To provide a stimulus for the self-evaluation, the University has asked Dr. Maurice E. Troyer, Professor of Higher Education at Syracuse University, to address a special meeting of the faculty, scheduled for Tuesday, March 18.

The final step will call into play various campus groups who will give final approval to the operational philosophy and proposed programs. This will involve the University's Student Government Association, the University Senate, the University Board of Trustees, and others.

Final action on these proposals is expected to be completed in the spring of 1970.

Graduate School Establishes Goals In Recent Ten Year Projection Report

Indiana University of Pennsylvania's Graduate School expects to offer 28 new programs of study on both the doctoral and master's levels within the next decade, or between now and 1978, according to a "Ten Year Projection Report" recently released by the Graduate School.

This information is included in a comprehensive projection, prepared not as official policy of the university but rather as a prediction and recommendation concerning trends which the university's graduate division is expected to take within the coming decade based on "present tendencies and real desires."

The report predicts that, through rational development and under proper conditions, Indiana "will achieve regional distinction and recogni-

tion within a short time in many fields of graduate study" after stating, "There is a solid base on which to build."

Dean of the Graduate School is Dr. I. L. Stright. Drawing up the report were Dr. William W. Betts Jr., Assistant Dean and professor of English, Dr. Gary L. Buckwalter, professor of physics, Dr. Robert C. Seelhorst, professor of art, and Dr. Albert J. Wahl, professor of history.

This report was prepared based on the premises of assuming genuine continued support on the part of the university and "massive financial support" from the Commonwealth of Pennsylvania. It should therefore be regarded more as an indication of, rather than as a mandate for future development.

In 1957 the then Indiana State Teachers College was authorized to give graduate study courses leading to a master of education degree as the first of the 14 state teachers colleges in Pennsylvania to offer work on the graduate level.

Graduate degrees are now offered by the Graduate School in elementary education as well as 17 specialized areas of elementary and secondary education. Master of arts programs in geography, English, counseling services and history are also offered; master of science degrees are offered in geography, mathematics, physics, chemistry and biology.

Indiana's first doctoral level offerings were initiated this year, with a program leading to a doctorate of education in elementary education, and next September, with a program leading to a doctorate of philosophy in English.

Expected to come within the next ten years are doctorates of education in physics and in science in 1971-72, a doctorate of philosophy in physics in 1972-73, doctorate of philosophy in political science in 1976-79 and doctorates of education in art education, mathematics and music.

Doctor of philosophy degree programs are also expected to be developed in English education for specialists in college teaching, history, music, chemistry and biology, and a doctorate of music arts is expected to be offered in music.

Master of arts degree programs are predicted in political science and French for 1970, in German for 1971-72, in international studies for 1975 and in art history, philosophy, criminology and music. Master of science in computer science and master of music in music programs are also planned.

Master of education programs are proposed for political science, safety education—there being no such program in Pennsylvania at the present time—and health and physical education—providing for specialization in outdoor education, recreation, safety, dance, athletic administration, the physiology of exercise and nursing administration.

Slated for 1975 is a master's degree in business management or business administration, and a non-degree program in distributive education is to be added at some time within the near future.

Along with these new degree programs it is anticipated that the university will become involved in certain related research area concerns, such as a Center for State and Local Government Research, a center for the study of air and stream pollution and work in certain areas of physics.

In line with this more diversified graduate program, it is expected

that enrollment in the Graduate School will reach 2100 students by 1978 as compared to 883 registered for the 1968-69 fall semester. Of these 2100, 800 or 38% will be fulltime graduate students; this compares to a present 151 or 17%.

While part of this increase will be because more people are graduating from college than ever before, the fact is that this rise will be effected chiefly by the addition of the new degree programs, most of it coming on the part of fulltime students working toward master of arts or master of science degrees.

This increase in fulltime students will occur because of increasingly attractive assistantship opportunities, increasing affluence among the graduate student population, a greater emphasis on the need and desirability of entering graduate work on a fulltime basis and the growth of doctoral programs together with their residence requirements.

Degrees granted in a given year are expected to rise from the 218 of the academic year 1967-68 to from 400 to 450 master's degrees plus several doctorates in 1978-79. Since 1957, when graduate work was first offered at Indiana, a total of 1212 master's degrees have been awarded.

The majority of Indiana graduate students will continue to be teachers, with the quality of students having been improving over past years and continuing to do so. While a 2.5 undergraduate average is now required for admission to graduate study, this is expected to go to 3.0 or even higher in some departments.

With many to be housed in proposed graduate student apartment buildings, a much greater percentage of students will be residents. And the percentage of students who also earned undergraduate degrees at Indiana will be reduced as a wider geographic area, including students from beyond Pennsylvania, comes to be represented. At present Indiana graduates enrolled account for 50%.

There should be a dramatic increase in the number of graduate assistants and those studying on fellowships. Increased fellowships will be supported by the state government, the federal government, private foundations and the university itself. Such grants will be of two kinds, research and teaching, and they will of course be awarded on a competitive basis.

It will be the continued goal that in all graduate classes the emphasis be placed on superior teaching and on objective, independent research, with designated courses or programs requiring evidence of research activity on the part of all students. Large classes are to be guarded against.

Responsibility for instruction in the fundamentals of research will gradually be turned over to each department, each offering its own specialized course. The publication of research will be encouraged, and a university press for this purpose among others may be established.

Certain research specialists may develop within many of the departments, such as the study of air and stream pollution within biology for example. "Independent, objective research is the thing which distinguishes the graduate program from the undergraduate," maintains the report.

There will most probably be an increasing trend toward comprehensive examinations for students on both the master's and doctoral levels to encourage better planning and better coordinated programs of study. Comprehensives are now required in the doctoral programs and for a master's in physics.

According to the report, an important factor in the providing of worthwhile graduate instruction in all areas will be adequate provision for an increased number of faculty members, skilled in their fields, reduced assignments both in terms of hours and students so that more genuine seminars might be scheduled, and enlargement of the library both in terms of staff and facilities.

Increasing enrollment, steady growth in master's degree programs and the continued development of doctoral programs will make necessary an increase in the administrative staff of the Graduate School.

So as to properly manage its general administration, assistant deans should be appointed within the next decade for admissions, programming, student welfare—graduate assistantships and fellowships, housing and financial aid—and research.

Also tied up with continued development of Indiana's graduate program is the university building program. Building planned for the university in general will serve the Graduate School as well. Significant to it in particular, however, are an administration building, a new library and an apartment building.

In a new administration building, slated for completion in 1971 or 1972, will be administrative offices for the Graduate School, the Department of Mathematics and the computer center. Also included will be an auditorium-lecture hall and special seminar rooms.

To be completed in 1973-74, a new university library costing \$9 million will house a total of 1,500,000 volumes. This compares to a total of 300,000 currently housed in Stabley Library. The new library will be situated on the present site of the two wings of John Sutton Hall.

It is expected that the first graduate student housing will be ready in the form of an apartment building for the fall of 1969. This will include 60 efficiency apartments. A second private apartment house is slated for the fall of 1970, as is an apartment building for married students and faculty.

Along with large scale campus building projects should come provision for adequate research and office space, sufficient specially designed seminar rooms in new classroom buildings and ample advanced, useful equipment of various type.

It is anticipated that increasing financial support will come from federal sources in the form of fellowships, research grants and institute grants. The report points out that one student year of graduate work costs the university "four times as much as one student year of undergraduate work" on the master's level, "seven times as much" on the doctoral level.

The report concludes by stating, "The short history of the Graduate School operation at Indiana is an impressive one, dignified by increasingly high standards, excellent teaching, increasingly more able and sincere students, emphasis on research, and careful planning for the future.

"It (the committee) believes the relationship between the undergraduate schools and the Graduate School has been a healthy one. The Graduate School does not seem to be superimposed upon the original undergraduate college, nor does it seem to provide merely a continuation of the undergraduate experience.

"It has been providing a fresh and exciting and challenging experience for those people preparing for a professional career.

"But the next ten years should see, if the university is to be truly a university, an increasing interest in the Graduate School program, not at the expense of the undergraduate schools.

"Enrollment will steadily advance, excellence in teaching will be encouraged to continue through improvement in the physical facilities and equipment, in teaching methods and professional attitudes, and in the nature of classes; new degree programs will be added, and the groundwork for future development will be laid."

"Emphasis: Our African Heritage" Sponsored By Indiana University

Indiana University of Pennsylvania, through the constructive efforts of 15 different cooperating organizations, recently sponsored a three week "Emphasis: Our African Heritage" program on campus.

Nearly 20 special events planned for this program included appearances by noted guest lecturers (including a four day visit by the Peace Corps), and campus speakers, entertainment, viewing of films and documentaries, related church services both on campus and in the community, an art exhibit and discussions.

In addition to these special events, two weekend institutes, one on "Africa and Teaching African Studies" and the other on "Segregated Schools—Disadvantaged Students," were sponsored as an integral part of the total "Emphasis" program.

Planning for this program represented the combined efforts of representatives of the Indiana University student body, teaching faculty and administration working together with other representatives of the Indiana area community.

Cooperating organizations included the African and Black American Studies Committee, Center for International Studies, the university's Artists-Lecture Series, Phi Delta Kappa honorary professional education fraternity, Student Union Board, Foreign Student Club, Black Progressives and the Campus Ministry.

Also cooperating in this venture were the academic department of History, Music and Music Education, English, Geography, Economics and Political Science and the Indiana County Improvement Association.

Guest speakers included Dr. C. Eric Lincoln, professor of sociology and religion at the Union Theological Seminary in New York; Dr. Saul Maloff, past associate editor of *Newsweek* magazine; Warren Robbins,

founder and Director of the Frederick Douglas Institute of Negro Arts and History in Washington.

Oumourou Youssoufou, First Secretary of the Niger Embassy in Washington; Jean-Pierre Hallet, explorer, sociologist, naturalist, linguist and art collector; Walter Carrington, Deputy Director of the Africa Peace Corps; and regional representative Fred Walhauser and African recruiters of the Peace Corps.

Galia Kallon, a foreign student at IUP who comes from Sierra Leone, related "Tribal Customs in Sierra Leone." He is a senior in business administration.

Performing artists included the Orchestra Ethiopia, which appeared just one week after it performed on the CBS Network Ed Sullivan television show, and the Heritage Foundation Jazz and Blues Ensemble.

The former group, known as "The Blue Nile Group," is a 17 piece ensemble and features dancers and musicians playing native masinko, singing and dancing. They appeared under auspices of the Peace Corps.

The Heritage Foundation Jazz and Blues Ensemble, comprised of Que Que Fairlawn, organ; William Thorpe, alto horn; and William Byrd, drums; performed a two hour concert of blues and jazz arrangements.

They appeared through the Heritage Foundation of Nutley, New Jersey, an organization whose purpose is the promotion of awareness and appreciation of the cultural heritage of minority groups in America.

Four special films were also slated for viewing: "Our African Heritage," along with a discussion led by its producer, Sam Bryan; "Come Back, Africa" starring Miriam Makeba; and two documentaries, "Malcolm X: Struggle for Freedom" and "Troublemakers."

Bryan, producer of "Our African Heritage," served two years in the Peace Corps, and is now teaching at Fifth Avenue High School in Pittsburgh. He has completed his doctorate in history at Carnegie-Mellon University.

In addition to a service at Calvary United Presbyterian Church addressed by Dr. Lincoln, a "Mass for Americans" was said at the campus Newman Center for Roman Catholic students. This was a Negro Spiritual Mass composed by Father Clarence Joseph Rivers of Cincinnati, Ohio.

The art exhibit was one by Ed Ellis of Halfway House and was on display throughout the month of March.

A student panel discussion posed the question "The Afro-American Student; What Is He?" Panelists were Sala U Din Saif Salaam, chairman of the Afro-American Institute of Pittsburgh, and Jake Milliones, with the Communications section of the Black Action Society. Coordinating was Dave Smith, a student at IUP who graduated from Boys High in Brooklyn, New York.

The two weekend institutes, led by conference chairman Dr. Irwin Marcus of the Department of History faculty at the university, featured guest lecturers, special dinners, discussions, panels, films and exhibits pertinent to the two subject areas developed.

Dr. Francis McGovern Named Dean Of School Of Arts And Sciences

Dr. Francis G. McGovern, chairman of the Department of Economics at Indiana University of Pennsylvania for the past two and a half years since 1966, has recently been appointed Dean of the School of Arts and Sciences at the university.

His appointment became effective with the start of the second semester, replacing Dr. William W. Hassler, who assumed the Presidency of the university on January 1, 1969.

Dr. McGovern will be charged with the continued growth and development of the university's liberal arts division, which has since its inception in 1962, developed to the point that it now includes 16 academic departments and enrolls more than 1800 students.

Prior to coming to Indiana in 1966, Dr. McGovern had taught at the University of Dayton for 19 years since 1947 and at Providence College before that. While serving at Dayton, he had been Director of the Office of Business on Economic Research for two years.

Before achieving a doctor of philosophy degree at Ohio State University in economics, Dr. McGovern had earned a master of business administration degree in finance at Boston University and a bachelor of science degree in accounting at Providence College.

He is a veteran of four and a half years service with the U.S. Army, including nearly three years of overseas duty in the South Pacific Theater during World War II.

Dr. McGovern is a member of the American Economics Association, the Mid-West Economics Association, National Education Association (NEA) and American Association of University Professors (AAUP) and has traveled to England, the Netherlands, Denmark and Sweden in connection with a study of the economics of urban land use.

370 Students Awarded Degrees At January Commencement Exercises

Approximately 370 graduates received baccalaureate and graduate degrees from Indiana University of Pennsylvania in annual winter commencement exercises Sunday, January 12, at Fisher Auditorium. Dr. William W. Hassler, President, presided for the first time.

Delivering the principal address on the subject of "The Youth in Tomorrow's World" was Congressman John P. Saylor of Johnstown, who represents the 22nd Congressional District of Pennsylvania (which includes Indiana County) in the U.S. House of Representatives.

Included in those receiving degrees were 280 undergraduates who were granted various baccalaureate degrees (234 bachelor of science in education, 33 bachelor of arts and 13 bachelor of science).

Also awarded were 72 master of education degrees as well as 16 master of arts degrees and a master of science degree, making a total of 369 university students and graduate students receiving degrees. These totals represent new highs in both divisions for a January commencement.

Sixteen military commissions in the U.S. Army as second lieutenants, representing completion of the four year Reserve Officers Training Corps (ROTC) program, were also awarded. Two of these commissions were granted in the Regular Army, 14 in the Army Reserve.

At the commencement exercises, Dr. Hassler conferred all academic degrees, while Dr. Ralph W. Cordier, Dean of Academic Affairs and Dean of the Faculty at the university, introduced the Deans of the eight schools which comprise the organization of the institution.

Military commissions were granted by Col. William S. Wiley, Jr., professor of military science and commandant of the ROTC at the university. Invocation and benediction were offered by Rev. Harold C. Liphart, director of the Wesley Foundation (United Methodist) for students in Indiana.

Marshall G. Flamm, president of the university Faculty Association and a member of the Department of Special Education staff, led both the processional and recessional. Larry Pearce, a junior from Coraopolis, provided organ music.

A reception was sponsored following commencement for all those receiving graduate degrees and for honored guests at Foster Dining Hall. This tea was arranged by the Graduate School, Dr. I. L. Stright, Dean, Dr. William W. Betts, Jr., Assistant Dean, and Dr. George T. Wiley, Director of Graduate Research.

At the same time, the ROTC sponsored a reception at Foster Dining Hall for the 16 men who received commissions at commencement. This took place immediately following the exercises and was arranged by Col. Wiley and his staff.

Thompson Named Director Of Expanded Computer Center

Jack Thompson, an instructor in the computer science department at New Mexico State University since 1965, has been appointed Director of Indiana University's recently expanded Computer Center.

In his duties at New Mexico State, Thompson had been head of administrative data processing; he had previously served as an operations research analyst and computer programmer for the El Paso Natural Gas Company from 1961 to 1965.

Thompson completed a master of science in mechanical engineering degree at New Mexico State with a major in industrial engineering and emphasis in operations research and computer science. He had earned a bachelor of science degree in mathematics at the University of Texas at El Paso.

A member of the Association of Computing Machinery (ACM), and the American Association of University Professors (AAUP), Thompson attended a summer seminar in operations research in 1963 at the University of Michigan.

As Director of the Computer Center at Indiana, he will serve as a consultant to instructors of computer related courses in all departments of the university and will be responsible for the administrative operation of the center and charged with development of, and assistance in, computer applications as conducted by students and faculty of the university.

At Indiana Thompson takes charge of a recently established spacious Computer Center which includes approximately \$400,000 worth of new computer equipment installed in January of this year.

The new equipment, an IBM System/360 Model 30 computer system, has been placed in operation in the center on rental from IBM; it represents a distinct improvement over earlier models previously the mainstay of the Indiana center.

One complete system connected by cable and assisted by two power units, this new system is comprised of the Model 30 central processing unit, a card read punch, a printer and three disk storage units. Each of these component parts possesses rather dramatic capabilities.

The Model 30 itself has 32,768 storage units (this was increased to 65,536 in January), each of which stores one alphabetic character or two decimal digits. The card read punch reads cards at 1000 per minute and punches them at 300 per minute. Then the printer prints 132 characters per line, 600 lines per minute. And the three disk units can each read or write on packs capable of storing 7.25 million characters.

Also added in January were an additional disk drive and two remote terminals which allow users to gain access to the computer from other buildings on campus. This means that users will not have to go to the Computer Center itself to perform their operations.

Such a system as this is designed as a foundation for an orderly capability expansion of the Computer Center so that as the university

grows the system can be expanded to adequately meet computing requirements for instruction, research and administrative processing—the three present priority usages.

To provide for greater efficiency this system is operated under a disk operating system. As opposed to the exclusive use of filed paper cards, this system provides for greater auxiliary storage of regularly needed information right within a core storage area part of the central processor itself and is much faster and more convenient.

A low level (or rather elementary) language, Basic Assembler Language, and four more advanced compiler languages — FORTRAN IV, COBOL (Common Business Oriented Language), PL/I and RPG (Report Program Generator)—are available for program writing. The latter four make multiple operations possible easily.

This new equipment has been installed in a nine room complex in John Sutton which the new Computer Center occupied in the summer of 1967 after being based in much smaller quarters in Clark Hall. Also housed there are various supporting machines to the basic operation.

In addition to the main computer room, there are a tab machine room for unit record equipment, a card preparation room where students and researchers operate card punches, a laboratory for the preparation and correction of computer programs, several offices and a storeroom.

First priority for use of the Computer Center is given to instruction. Five undergraduate and four graduate courses are currently offered in mathematics dealing with computers, while the School of Business is now initiating two new major programs making extensive use of computer instruction.

Included in courses offered are both FORTRAN and Assembler Language on both graduate and undergraduate levels, numerical analysis, automatic data processing for certified teachers and a seminar in computer mathematics as well as introductory courses required of all mathematics and business majors stressing unit record equipment and basic computer programming.

New courses recently approved for offering this academic year in connection with data processing and business systems analysts programs to be offered by the Departments of Business Education and Business Management respectively relate to information systems, problem programming and problem application, system technology, system analysis and quantitative methods.

More than 400 students were enrolled in computer related courses during the first semester of this year. Approximately 600 are anticipated for the coming 1969-70 academic year. These students are taught the capabilities of a computer, both what it can and cannot do.

Skills are imparted to students in the writing of programs for the computer so that they have the ability to produce programs which will have a computer do what the student wants it to do. Students write the actual programs, but they are then processed by operators of the Computer Center.

Research data processing is given second priority on computer time. Any graduate student at the university or faculty member doing independent research or working on advanced degrees at other institutions may use the facility for summarizing or statistically testing data.

Statistical procedures employed include multiple regression analysis, test development, correlation matrices and item analysis, with certain other special routines developed as needed. Individual consulting service and library programs are available through Thompson.

Through intelligent use of the Computer Center, time consuming manual handling of data is replaced by automatic processing. The researcher can then use larger samples with improved stability of conclusions, and he can follow through to a more complete analysis of his data.

Research work can then become more interesting, challenging and accurate than if manual methods are used exclusively. Over a coming period of time, it is felt that this service will contribute substantially to an improved campus research program.

General data processing for administrative purposes of the university and its various departments is given third priority but still requires a large amount of time. Various lists and information for many reports are now being generated by machine.

This includes student records from the time of admission through permanent record files as well as programming, class scheduling for freshmen, registration, statements, grade reports and class lists. Similar processing is done for Stabley Library, the university film service, Student Union and business office.

Stabley Library now processes orders and lists and has recently automated its book circulation procedure. The film service is automated on a card system for orders through booking, confirmation and billing. Parts of the Student Cooperative Association accounts are being processed on cards, and an automated system has been established for the student employment payroll.

An inventory of all university equipment is currently being taken and a card file of information established. When this project is completed, equipment in any building, department, room or classification will be identified and summarized.

While unit record equipment had been used for several years previously in processing student records and for other limited applications, the university Computer Center as such was first established in July, 1963, with the installation of an IBM 1620 computer.

At that time all equipment was consolidated under the supervision of a Director responsible for developing all phases of usage on campus. Two equipment expansions had been made in the computer system prior to this most recent acquisition.

In the fall of 1964, a disk drive was added which permitted the use of a monitor which greatly increased the efficiency of processing student programs. In March, 1966, an on-line printer and second disk drive which more than doubled on-line auxiliary storage were installed.

Present available storage has made possible the start of a data bank which will be invaluable in the future. This data bank when fully developed will include information on all students of the university.

Student records will begin with information first received on the student's application for admission to the university, include complete data while the student is enrolled at the university and continue as alumni records following his graduation from the university.

By far the greatest growth in Computer Center services has been

in its first priority, instruction. In its first semester the center serviced 60 students in three sections, with one instructor. Now four faculty members of the respective departments teach several times that many students.

Hand in hand with instruction is research, and Thompson feels that this will grow along with the university's new doctoral programs and that such a dynamic research program is most beneficial to campus image and life.

In the area of data processing—which virtually every student and faculty member has been affected by in some way, while any new system such as this will experience growing pains, a highly computerized operation will make for much greater speed and accuracy as opposed to manual operations.

There are still a great many more applications and operations in the administration of the university and conduct of its affairs which can lend themselves to computer assistance, and it is planned that the Computer Center will expand its services in this area as need and desire arise.

Assistant Director to Thompson for the center is Kenneth L. Schildt, who has been a member of the university staff since 1965. He came to Indiana from Altoona High School, where he had been a member of the business education faculty with responsibilities in that school's Computer Center for four years.

He earned a master's degree in business education at Pennsylvania State University after receiving a bachelor of science in education degree from Shippensburg State College in business and social studies. Schildt has also attended a graduate seminar in data processing at North Carolina State University.

There are now nine Civil Service positions for staff workers at the center. These positions include those of programmers and operators; in addition, several graduate and undergraduate students are employed on a parttime basis to perform routine operations and clerical work.

During the initial years of Indiana as a university, plans for development of the Computer Center have included and continue to include refinement of present applications and the development of new ones as need becomes apparent.

By building the total system as demand develops, the three priorities of instruction, research and data processing with their respective requirements should be met more than adequately, yet at the same time economically.

Fees For Graduate Assistants Waived Under Recently Adopted Policy

Effective with the start of the 1969-70 academic year in September, tuition fees for graduate assistants at Indiana University of Pennsylvania will be waived according to a new policy approved at the recent winter quarterly meeting of the university's Board of Trustees.

Tuition in the Graduate School at Indiana amounts to \$20 per credit. With graduate assistants carrying full schedules of study, this waiver means a savings of at least \$200 per semester or \$400 per year, on the average, for each graduate student on an assistantship.

A total of 117 graduate assistants are now enrolled at Indiana; it is hoped that there will be as many as 200 next September. They are also eligible to receive stipends of up to \$2100 for a period September 1 through June 30.

Graduate assistants must be registered for at least eight semester hours of graduate work and normally carry from ten to 12 such credits. To be eligible for an assistantship, they must be enrolled fulltime in the Graduate school and be determined on a course of study leading to a master's degree or a doctorate.

As graduate assistants, they are engaged in counseling, tutoring, proctoring and assisting the university faculty in instruction and research. Such duties are determined by the student's qualifications and are prescribed and directed by the academic department to which he is assigned.

Graduate assistants, for the most part, are assigned to academic departments corresponding to their areas of study although they may be assigned to any department of the university.

Graduate degrees are now offered by the Graduate School in elementary education as well as 17 specialized areas of elementary and secondary education. Master of arts programs in geography, English, counseling services and history are also offered, as are master of science degrees in geography, mathematics, physics, chemistry and biology.

Indiana's first doctoral level offerings were initiated this year, with the institution of a program leading to a doctorate of education in elementary education. A program leading to a doctorate of philosophy in English will be initiated in September, 1969.

Call Letters Assigned To FM Station

The Federal Communications Commission recently assigned call letters for an educational FM radio station on the campus of Indiana University of Pennsylvania. To be known as WIUP/FM, the non-commercial station will be staffed completely by students and will feature discussions, news reports, interviews and musical programs.

The FM radio station will broadcast from the Learning Research Center, which is still under construction on the IUP campus. It will be found at 91.3 on the radio dial and will be received within a 30 mile radius of Indiana.

Already in use on the campus is a closed circuit television system, which began broadcasting two mathematics courses this fall. Approximately 300 students now view a course in fundamentals of mathematics on the television screen. Others are watching a class in the teaching of elementary mathematics, a program being taped at the request of the Department of Public Instruction.

Dr. J. R. Green Named Coordinator Of School's Division Of Humanities

Dr. James R. Green, chairman of the Department of English at Indiana University of Pennsylvania since 1950, has recently been appointed coordinator of the Humanities Division of the university's School of Arts and Sciences. He assumed his new position with the start of the second semester of the current academic year.

Prior to coming to Indiana in 1950, Dr. Green had taught at New York University and at Kutztown State College. He had also been a high school teacher of English at New Castle Senior High for 14 years from 1934 to 1948 and a junior high teacher of English in Beaver Falls.

Granted the degree of doctor of philosophy with honors in English education by New York University, Dr. Green had earned bachelor of science and master of arts degrees in English at Lafayette College and Columbia University, respectively. He has completed additional post-doctoral work in education and psychology at Pennsylvania State University.

Dr. Green is a member of Kappa Phi Kappa honorary education fraternity, National Council of Teachers of English (NCTE), Pennsylvania Council of Teachers of English (PCTE), Modern Language Association (MLA), International Society for General Semantics (ISGS), Association of Chairmen of Departments of English (ACDE).

Linguistic Society of America (LSA), American Association of University Professors (AAUP), Conference on College Composition and Communication (CCCC), National Education Association (NEA) and Pennsylvania State Education Association (PSEA). He has also published several articles which have been printed in professional journals.

IUP Acquires Neutron Howitzer For Use In Natural Sciences

In keeping with its constant advancement toward providing always better academic opportunities for its students through the intelligent use of worthwhile instructional materials, Indiana University of Pennsylvania has recently acquired a neutron howitzer and a small plutonium-beryllium neutron source.

As explained by Dr. Richard E. Berry, chairman of the Department of Physics at the university, this new acquisition will permit students to see certain basic principles of nuclear physics at work—principles which could previously be learned only secondhand.

Thus undergraduates studying in this area at IUP will be able to gain a fuller understanding than before possible of many important concepts of nuclear physics.

The howitzer is a box of welded stainless steel about four feet by two feet containing three cylinders of plutonium-beryllium, each about one and a half inches in diameter and two inches in length. While the neutron source itself comes as a grant from the federal Atomic Energy Commission (AEC), the university has spent approximately \$10,000 for related laboratory equipment.

A neutron howitzer serves the same purpose as a nuclear reactor for experimentation; that is, it provides a source of high intensity neutrons for the activation of other materials. By use of the neutron howitzer, the student may study the effects of radiation on many substances.

A product of the nuclear reactor, plutonium-beryllium eventually diminishes its radioactive powers, but this loss takes several centuries. The howitzer's advantages over an actual reactor are many—it is small, portable, relatively inexpensive, and, because of the small quantity of radioactive material used, it is safe. In short, it is ideal for classroom use.

At the same time, precautions taken, even with such a small plutonium-beryllium source, are many, and its handling is carried out under rigid control of the state Department of Health and the federal AEC. The howitzer is kept behind lead shields in a double-locked room.

Any person working with the howitzer must wear a film badge which registers the slightest exposure to radiation. All students who perform neutron experiments must first demonstrate their competence with a simulator—a device identical to the actual howitzer but containing no radioactive material.

One of the experiments now being conducted with the howitzer in undergraduate physics classes concerns measuring the half-life of the Indium isotope.

All elements, if activated by neutron bombardment, become radioactive and then gradually diminish in radioactivity; the length of time required for a substance to lose one half of its radioactivity is called its half-life.

Since each isotope has a unique decay scheme, one can discover what isotope he is examining by discerning its half-life. Indium, which has a short half-life, is ideal for learning how this process works.

Since a wide range of studies may now be conducted with the newly acquired howitzer, it will be an important tool in the total natural sciences program at Indiana University. It has been made available for use by any of the university's four science departments—Chemistry, Physics, Biology and Geoscience.

Two IUP Professors Are Contributors To Recent Book On Poetry Therapy

Two Indiana professors, Kenneth F. Edgar of the University's Psychology Department, and Richard A. Hazley of the English Department, are contributors to **Poetry Therapy**, recently published by J. B. Lippincott Company.

Edited by Dr. Jack J. Leedy, Director of the Poetry Therapy Center in New York, the book describes the use of poetry in both individual and group psychotherapy.

Edgar and Hazley contributed two chapters to the work, the first (in collaboration with Dr. Herbert I. Levit of Woodville State Hospital, Office of Mental Health, Western Pennsylvania), on "Poetry Therapy with Hospitalized Schizophrenics."

This chapter demonstrates the effectiveness of poetry in therapy with chronic schizophrenic patients at Dixmont State Hospital in Pittsburgh, employing matched groups, one receiving poetry therapy and the other conventional hospital treatment.

Working with seven patients diagnosed as chronic schizophrenic and with an average hospitalization of six years, the therapists noted the following results: three of the patients were discharged within the eight month period and the other four began making home visits. Of the controls, one was discharged, while the others showed no signs of improvement.

The second chapter contributed by Professors Edgar and Hazley deals with validating poetry therapy as a group therapy technique.

The procedure employed sixteen college students who had applied for individual counseling at the Slippery Rock State College Clinic.

After the completion of 26 hours of treatment over a four month period, a panel of three clinical psychologists evaluated the gathered data and unanimously agreed that of the eight who had been selected for the experimental group seven had "improved" and one apparently had "not improved."

Four specific phenomena resulting from a discussion of the data are also discussed by the authors: 1) the difference in improvement between the males and females, 2) the suitability of certain individuals as candidates for this form of therapy, 3) the "psychological moment" in individual patients, and 4) the resemblance of original poems of individuals in group therapy to the projections of certain archetypes.

Six From Indiana Attend Luncheon Of All Pennsylvania College Alumni

Six persons representing Indiana University of Pennsylvania recently attended the annual All Pennsylvania College Alumni Association of Washington, D.C., Citation Luncheon at the Marriott Twin Bridges Motel near Washington.

Attending from Indiana were Dr. William W. Hassler, President, and Mrs. Hassler, Dr. Willis E. Pratt, past President and Chancellor Emeritus, and Mrs. Pratt, Mary Esch, executive secretary of the General Alumni Association, and Paula Jerito, secretary to Miss Esch.

Highlight of the luncheon was the granting of the annual association Citation to Dr. Calvert N. Ellis, President Emeritus of Juniata College, who had served as President of that institution for 25 years from 1943 to 1968, and an acceptance address by him. This is the same award which Dr. Pratt received in 1962.

Attending the luncheon along with these six from the Indiana campus were approximately 20 graduates of Indiana University who now reside in the Washington area as well as four delegates from the Philadelphia unit of the General Alumni Association.

The All Pennsylvania College Alumni Association of Washington is an organization comprised of alumni of 74 different colleges and universities in the state who now reside in the Washington area. Dorothy Ramale, an Indiana alumna, serves on the association's executive committee.

Hassler Selected by Freedom Foundation For George Washington Honor Medal

Dr. William W. Hassler, President of Indiana University of Pennsylvania, has been selected by the Freedoms Foundation at Valley Forge through its distinguished National and School Awards Jury to receive the George Washington Honor Medal Award for the outstanding essay of 1968.

Dr. Hassler, who has over the years written extensively for various publications in both history and science and who has authored three different books on the Civil War, has been granted this award for his essay entitled "Righting the New Left."

In this essay Dr. Hassler bases his thoughts on a quote from Patrick Henry, "No free government, or the blessings of liberty can be preserved to any people but by a firm adherence to justice, moderation, temperance,

frugality, and virtue, and by a frequent recourse to fundamental principles."

Dr. Hassler first takes issue with Dr. Herbert Marcuse, professor of philosophy at the University of California at San Diego, who is an avowed Marxist and who has become a spokesman for the recent New Left movement, when Dr. Marcuse states, "I don't believe there is any free society today."

Assuming this, Dr. Marcuse further contends that the existing society should therefore be destroyed so that one of true liberty might be built in its place. At the same time, he offers no blueprint for such a society to replace that present order which he advocates tearing down.

Dr. Hassler maintains that, if left unchecked, such action, particularly on the part of activists on several campuses throughout the nation today, "will transform U.S. colleges and universities into Latin American type institutions in which the students rigidly exert control by dictating the hiring and firing of faculty, prescribing the curriculum and establishing academic policies!

"Should this happen here our able teachers and administrators would reluctantly but surely leave their jobs, and our superb educational system, despite all of its acknowledged shortcomings, would quickly deteriorate." Dr. Hassler further maintains that after the destruction of our education system would shortly follow the destroying of our free way of life.

"Therefore, it is imperative that we promptly take whatever action is necessary to restore the universities and colleges to their uniquely privileged and protected environment for individual study and intellectual exchange, reflection, and growth," contends Dr. Hassler.

Keeping in mind the basic tenet of democracy of majority rule, Dr. Hassler concludes his essay by offering a specific program designed to mobilize the interests and viewpoints of the majority of students in higher education today.

Among the particular points of the program are (1) "Active support and participation in sound projects designed to correct our festering socio-economic ills—racial discrimination, ghetto squalor, and senseless lawlessness;" (2) "Reconstructing of our system of higher education so as to eliminate de-personalization of students and concurrently to provide for greater student participation in college governance."

(3) "Exercise by educational administrators of dynamic and enlightened leadership which will inspire students to rally behind clearly defined and meaningful goals;" (4) "Inculcation of our young people with a broader and deeper appreciation of our heritage."

Dr. Hassler concludes by saying, "The task of righting the New Left . . . constitutes one which must be accomplished if we are to prevent bitter divisiveness which conceivably might ultimately destroy our precious free society."

Raymond Thomas Awarded Doctorate From Pennsylvania State University

Dr. Raymond L. Thomas, a member of the Department of English faculty at Indiana University of Pennsylvania for the past seven years, has recently been awarded a degree of doctor of philosophy in English literature by Pennsylvania State University.

Dr. Thomas' doctoral dissertation was entitled "Neo-Classical, Romantic and Modern Interpretations of Milton's Satan." He is a member of the Milton Society of America as well as of the American Association of University Professors (AAUP) and of the Modern Language Association (MLA).

This doctoral degree follows a master of arts degree in English and comparative literature awarded by Columbia University. Dr. Thomas has been a Mexican Government fellow, Woodrow Wilson fellow, Columbia University faculty fellow and a Danforth Foundation teacher grant recipient.

A native of Shelocta in Indiana County, Dr. Thomas is a graduate of Indiana University of Pennsylvania, which awarded him a bachelor of science in education degree with a major in Spanish and minors in English and French. In studying for that degree, he spent his junior year at the National University of Mexico in Mexico City.

Prior to joining the faculty at Indiana, Dr. Thomas had been a consultant in Spanish to the School District of Bristol Township in Bucks County and an instructor in English at West Virginia University.

Ganley Elected National Secretary Of NAIA Golf Coaches Association

Bernard Ganley, golf coach at Indiana University of Pennsylvania for what is now the past seven years since 1962, has recently been elected Secretary of the National Association of Intercollegiate Athletics (NAIA) Golf Coaches Association.

Ganley, whose team won the NAIA national championship for the first time last spring after ranking high in the two preceding national tournaments, has also been serving as an NAIA committeeman for all Area Eight golf arrangements. Area Eight is comprised of New England and the Middle Atlantic states.

Ganley, who became golf coach in the spring of 1962 at Indiana following the retirement of George P. Miller from that position, has been a member of the Indiana faculty for the past nine years since January of 1960. Before moving over to golf, he had been track and field coach two seasons.

Fifth Summer Institute In English

Approved By U.S. Office Of Education

For the fifth successive year the English Department of Indiana University of Pennsylvania has been authorized to conduct a Summer Institute for English teachers under a grant from the United States Office of Education.

Indiana University of Pennsylvania is one of a few institutions throughout the United States that has been selected to conduct such institutes for five successive years.

For the past four years Indiana University has conducted summer institutes in English under the provisions of the National Defense Education Act. The 1969 institute has been authorized by the Education Professions Development Act of 1968.

This coming summer's institute at Indiana is unique among the English institutes throughout the nation. Purpose of the Indiana University Institute is to provide certification opportunities for those teachers now in Grades 7-12 who are not fully certificated in English. The Pennsylvania Department of Public Instruction has cooperated in planning the program.

The Institute will bring together 25 selected teachers for two summers (1969 and 1970) of full-time study of eight weeks each. Preference will be given in selection first to teachers from Western Pennsylvania and then to those in other parts of Pennsylvania.

Dr. James R. Green, chairman of English department and coordinator of humanities, will be the director of the Institute. Other staff members are Dr. Craig G. Swauger, L. J. Bright, John A. Davis, George W. Seacrist, and Dr. Donald Veith. All are members of the Indiana University English Department with the exception of Dr. Veith, who is on the staff at Chico State College, California.

The 1969 Summer Institute will concentrate on an integrated program of language and composition for six weeks (June 30-August 8) and on a course in the teaching of English, speech, and reading for two weeks (August 11-22).

The program for the second summer (1970) will be conducted for eight weeks from June 29 to August 21 in Speech and Oral Interpretation, The Nature of Literature, Landmarks of American Literature, and The Literature of Other Cultures.

Participants in the 1969 summer session will be expected to engage in a continuity program of conferences and workshops during the 1969-1970 academic year. The participants will return to the campus of Indiana for one two-day session in December, 1969, and for another two-day session in April, 1970.

Since the Institute is to provide certification opportunities, those accepted for the 1969 summer session are expected to agree to follow the program through to the end of the second summer institute if such course work is needed to complete certification standards.

Should the 1969 Institute supply sufficient course work to allow the participant to meet program approval at Indiana University by the Department of Public Instruction, there would be no need for the 1969 participant to attend the 1970 session.

Dr. Green described those teachers who are eligible to become participants as follows:

1. Teachers holding elementary certification only, but teaching English full time.

2. Teachers certificated in other academic subjects (e.g., history, geography) whose major teaching assignment is English.

3. Teachers whose major teaching assignment is another academic subject but who wish to qualify for English teaching as the major assignment.

4. Teachers who were certified to teach English with 18 semester-hour credits but who do not now meet present Pennsylvania certification standards in English.

Dr. Green said that preference will be given in the selection of Institute members to applicants from Western Pennsylvania and other parts of Pennsylvania who qualify by the following criteria:

1. Presently teaching full time.

2. Teaching experience of at least three years and at least ten more years before retirement.

3. Submission of undergraduate transcripts.

4. The recommendation of the principal about the applicant's professional interest and his assurance that the applicant's successful completion of the program will meet professional needs of the school.

5. Acceptance of the condition not to undertake any other commitments of employment or study for the six weeks the Institute is in session.

6. Acceptance of the condition to live in the dormitory provided by the Institute. Special exceptions to this may be made for those in the immediate vicinity of Indiana, Pennsylvania.

7. Have not previously attended an NDEA Institute in English.

For successful completion of the 1969 eight week program, a participant will be granted 12 credits, specially designated for this post-baccalaureate program. An additional 12 credits will be granted for the 1970 Institute. These credits will not be accepted as graduate credits, but they may be used to qualify a teacher for eventual admission to graduate study in English education.

Participants will, upon application, be eligible to receive a stipend of \$75 per week and an allowance of \$15 per week for each dependent.

Participants will be paid their full stipends, including the amount for dependents. No deduction will be made for room, board, or other expenses accruing to the participants. Such cost will be paid by the participants, not deducted from the stipends. Participants will also bear the expense of all travel costs to and from Indiana.

There will be no charge for tuition for the academic program and for the student activity fee.

The weekly cost for room and meals for each participant will be \$20.00. Each participant will pay for required texts for the courses.

Members of the 1969 Summer Institute in English will be housed in single rooms in Turnbull Hall on the Indiana University campus and will be served meals in the University dining hall. There will be no housing available for families or dependents of participants.

Teachers who wish to attend the Institute should send for application forms to Dr. James R. Green, Director, EPDA Institute, Indiana University of Pennsylvania, Indiana, Pennsylvania, 15701.

Kathleen Jones Awarded Doctorate In Home Economics By Ohio State

Dr. Kathleen Jones, a member of the Department of Home Economics Education faculty at Indiana University of Pennsylvania for the past five years, has recently been awarded a doctor of philosophy degree by Ohio State University.

Studying continuously at Ohio State from June of 1966 through this past August while on a leave of absence from Indiana after initiating doctoral studies in the summer of 1965, Dr. Jones specialized in home economics with additional areas of study in higher education and sociology.

Dr. Jones' major area of study in home economics was clothing and textiles, which she teaches at the university, and included concentration on the social-psychological aspects of clothing. Her dissertation was based on research and theory in social psychology and clothing and is titled "Esteem Accorded to Clothed Figures As Related to Fashion and Perception."

While studying at Ohio State, Dr. Jones received a General Foods fellowship for the 1966-67 academic year. This grant is made available by the General Foods Foundation to schools of home economics for graduate study fellowships to educate people for leadership positions in home economics.

Since returning to Indiana University in September of the current academic year, Dr. Jones has taught both undergraduate and graduate courses in clothing and serves as special projects adviser to the Home Economics Club, chairman of a Scholarship Committee and freshman class adviser.

She came to Indiana after teaching in the Penn Hills School District from 1956 to 1963, first on the junior high level and then at Penn Hills High School. She also served as a cooperating teacher supervising student teachers for Indiana two and a half years.

After graduating from Indiana with a bachelor of science degree, Dr. Jones earned a master of education degree at Pennsylvania State University with a major in clothing and textiles and a minor in higher education. She has completed additional graduate study at Penn State, Indiana and Cornell University.

Dr. Jones is a member of Kappa Omicron Phi, Omicron Nu and Phi Upsilon Omicron home economics honoraries, the American Home Economics Association and Pennsylvania Home Economics Association.

She also belongs to Kappa Delta Pi national honorary education fraternity, Delta Kappa Gamma honorary, the American Association of University Women (AAUW), National Education Association (NEA) and Pennsylvania State Education Association (PSEA).

Dr. Jones' doctoral research was "undertaken to determine (1) if clothing varies in its communicativeness with variance in fashionableness when used as a media for according esteem to others and (2) if viewers who differed on selected variables differed in their perception of clothing as a media for according esteem to others when fashion was the clothing variable."

To test various hypotheses which she had formulated concerning this general area, Dr. Jones polled more than 200 university women to determine their attitudes.

That in-fashion persons will receive higher esteem ratings at first meeting than those out of fashion was confirmed. Also confirmed was that persons formulating such esteem ratings who have high fashion interest will place greater importance on fashion in making their decisions than those with low fashion interest.

It was also found that differences in basic values or dominant interests unrelated to fashion play little part in the degree of emphasis placed on fashion in such matters, and that socially insecure persons place no greater emphasis on fashion than those who are socially secure.

Solutions to Local Government Problems Subject Of Political Science Seminar

Indiana University of Pennsylvania, largely through its Department of Political Science, will sponsor a seminar devoted to "Solutions to Local Government Problems Under Recent Constitutional Revision" during the first semester of the 1969-70 academic year.

This seminar, made possible through a grant provided under Title I of the federal Higher Education Act, will be conducted as eight consecutive evening sessions on campus during the months of October and November.

The program of this seminar will be designed so as to bring to the attention of local civic and government leaders from throughout Western Pennsylvania the new options now available for updating local government under provisions of the recently enacted Local Government Article of the revised Pennsylvania state constitution.

The Constitutional Convention of 1967-68 produced a remarkable document in this new Local Government Article. The general public and even local government officials, however, are not yet fully aware of the implications of consequent new flexibility permitted local governments in structure, financing and functions.

Innovations in local government are needed if local government is to survive as a meaningful institution. But, while this local government constitutional revision was a notable step forward, only through local grass roots understanding and action can these new options be exercised. To convey that understanding is the purpose of this seminar.

Information relative to the following specific options provided by the Local Government Article will be covered—distribution of state gross receipts tax on public utilities in lieu of local taxes, tightening of local governments real estate tax exemptions.

Home rule charters and optional forms of government for all levels of local government, intergovernmental cooperation, consolidation and annexation, new debt limits for local governments, grant of residual powers to local governments adopting home rule charters, new area governments, and miscellaneous changes in county government.

Presentations on these subjects will be made by various officials of state government agencies, officials of state associations and university professors. Among the more prominent of such leaders will be Genevieve Blatt, former state Secretary of Internal Affairs and a member of the Woodside Commission on Constitutional Revision.

Among organizations to be represented by their spokesmen are the Pennsylvania Department of Community Affairs, Pennsylvania Boroughs Association, County Commissioners Association, League of Municipalities, Pennsylvania Economy League.

Pennsylvania Association of Township Supervisors and Commissioners, A Modern Constitution for Pennsylvania, Pennsylvania Chamber of Commerce, Pennsylvania AFL-CIO, Committee for Economic Development, and the General Assembly.

Dr. Richard F. Heiges, chairman of the Department of Political Science at Indiana University, will serve as project director. He will be assisted by Ronald C. Green and John W. Smith, both members of the university's political science faculty.

Bernat's "In Memoriam: John F. Kennedy"

Recorded By Louisville Orchestra

"In Memoriam: John F. Kennedy," an orchestral composition by Robert Bernat, a member of the Department of Music and Music Education faculty at Indiana University of Pennsylvania, has recently been recorded by conductor Jorge Mester and the Louisville Orchestra.

This recording will be released later this year as part of the Louisville Orchestra's First Edition series of recorded contemporary music. The Pittsburgh Symphony Orchestra, under the direction of Henry Mazer, played the world premiere of Bernat's composition in a November 25, 1966, concert.

Subsequently during the 1966-67 season, the Pittsburgh Symphony played the piece 12 times, giving it more performances than any other contemporary piece played that season.

Shortly after its premiere, Bernat's work was nominated for the 1967

Pulitzer Prize in Music, which was won by one of Bernat's teachers, Leon Kirchner, professor of music at Harvard University.

"In Memoriam" has been performed by several major as well as semi-professional orchestras and, in a transcription for band, by the IUP Wind Ensemble under the direction of Daniel DiCicco of the university's music faculty.

The Louisville Orchestra's First Edition recordings series, initiated in 1948 and later underwritten by a grant from the Rockefeller Foundation, has included more than 150 compositions by composers from virtually every country in the free world.

Among these are compositions by the four composers who have visited Indiana in recent years as part of the university's Contemporary Music Festival—Aaron Copland, Norman Dello Joio, Vincent Persichetti and Ross Lee Finney.

The recording in which Bernat's composition will be heard will also include a piece by the late Swiss composer Arthur Honegger and a cello concerto by Peter Mennin, president of the Juilliard School of Music, performed by the world renowned cellist Janos Starker.

A member of the Indiana music faculty since 1962, or for the past seven years, Bernat is a graduate of Carnegie-Mellon University. He earned his master's degree at Brandeis University of Massachusetts through a Woodrow Wilson Fellowship and was awarded the Crofts Prize in composition to study at the Boston Symphony's Berkshire Music Center at Tanglewood in 1960.

A winner of the annual Broadcast Music Incorporated (BMI) Young Composers contest, Bernat has been active as a composer of music for the theater at Carnegie-Mellon, Brandeis and Harvard Universities as well as at the Pittsburgh Playhouse.

In addition, he has served as staff orchestrator for the Pittsburgh Civic Light Opera, the Washington National Ballet and several symphony orchestras.

Before coming to Indiana University, Bernat had served on the faculties of Bethany College of West Virginia, Ohio State University, Brandeis University and The University of Pittsburgh Johnstown Center.

Indiana Summer Theater Guild Spotlight On Comedy For 1969 Season

The Summer Theater Guild spotlight at Fisher Auditorium on the campus of Indiana University of Pennsylvania for this coming summer of 1969 will be on comedy, as the Summer Theater Guild Advisory Committee at a recent meeting tentatively selected a schedule of five comedies and just one tragedy.

The five comedies include "Visit to a Small Planet" by Gore Vidal, "When We Are Married" by J. B. Priestly, "The Cactus Flower" by Abe Burrows, "The Country Wife" by William Wycherly and "The Prime of Miss Jean Brodie" by Jay Allen; the tragedy is "Hogan's Goat" by William Alfred.

"Visit to a Small Planet" tells of an imaginative affair in which a visitor from outer space comes to earth to do a bit of sightseeing and to see or start a war. In "When We Are Married," three staunch couples discover that the parson who married them is not qualified to do so.

"The Cactus Flower" deals with a bachelor dentist who has a gimmick to keep himself single until he meets the one he wants to marry. In "The Prime of Miss Jean Brodie," an eccentric teacher influences the lives of her students for better or for worse.

Actually, "The Cactus Flower" and "The Prime of Miss Jean Brodie" are still somewhat restricted in their staging, so final definite scheduling of these two plays is contingent upon their availability.

"Hogan's Goat," the tragedy, is a turn of the century political drama of a young upstart overthrowing a political machine and then discovering his own fatal flaw.

Co-op Leases Former Newman Center For Use As Student Union Facility

In order to provide additional facilities for student recreational and activity use, Indiana University of Pennsylvania through its Student Cooperative Association has recently completed a lease-purchase agreement for use of the former Newman Center building on Maple Street in Indiana.

The building, situated adjacent to George P. Miller Stadium, will be utilized and staffed on a part-time basis for the present, with the possibility that it might become a fulltime operation next fall. Its management will be conducted largely through the campus Student Union.

Christopher Knowlton, manager of the Student Cooperative Association, and Aaron J. Leventhal, program director of the Student Union, indicate that its principal uses for the present will be in the areas of weekend dances and social events, meetings of campus organizations and so forth. In short, it will serve as an auxiliary to the present Student Union building.

With both the recent and projected expansion of IUP to the south from the center of campus (construction of Oakland and Rooney Halls as well as Carriage House, as examples), it has been thought desirable that additional recreational and activity facilities be made available there.

Under terms of the lease-purchase agreement, the Student Cooperative Association will lease the property from the Diocese of Greensburg of the Roman Catholic Church for five years, with an option to buy at any time within or at the end of that five year period.

This building had been utilized as a chapel, social hall and all purpose building for Roman Catholic students of the university since its conversion from former use as a noodle factory in 1959. Replaced by the new Saint Thomas More Chapel and Newman Center on Oakland Avenue in February of 1968, the structure has been for the most part idle since that time.

Herm Sledzik Unanimous Choice For District 18 Coach Of The Year

Herm Sledzik, head basketball coach at Indiana University of Pennsylvania who has directed his Big Indians to a stellar 22 victory-one defeat record and a second consecutive NAIA District 18 playoff bid this campaign, has recently been elected District 18 Coach of the Year.

Sledzik was the unanimous choice of his fellow coaches in the district for this honor after being selected Area Eight Coach of the Year as well as District 18 Co-Coach of the Year along with Jim McDonald of Edinboro State in 1967-68.

Sledzik guided his charges to a regular season record which is the best in IUP history, surpassing a record set in 1957-58 when the Redskins under Coach Peck McKnight reeled off 22 wins and two losses and earned the right to advance to the NAIA national playoffs in Kansas City.

Indiana's selection to District 18 playoffs this year and last represent the first and second times they have achieved this honor since the 1958-59 campaign. Last season's final card of 18 victories against six defeats ranked as the best slate in seven seasons since the Indians chalked up 17 victories against five defeats in the 1960-61 campaign.

All this has come after Sledzik had struggled through three seasons in which the Braves broke even at 10-10 in the 1964-65 campaign and then slipped to marks of 9-11 (losing only two of those 11 by more than ten points) in 1965-66 and 11-12 (a frustrating year in which everything seemed to go wrong).

First taking over the Brave reins for the 1963-64 season, Sledzik guided his charges to their best record in three years at a dozen wins and

eight losses in what had been figured as a building year for the Tribe. His over-all six year mark now stands at a highly respectable 82 victories, 47 defeats.

Prior to coming to Indiana in 1963, Sledzik had been a most successful high school basketball coach at Montoursville High near Williamsport for the 1956-57 season and then at two Indiana County high schools, Shannock Valley from 1957 to 1960 and Elders Ridge, his Alma Mater, from 1960 to 1963.

While at Elders Ridge, he won the Indiana County Basketball Tournament in two consecutive campaigns; his teams at Shannock Valley copped sectional championships in two of his three years. All in all, Sledzik chalked up a very fine overall high school record of 127 victories against 44 defeats.

Prior to that year at Montoursville, Sledzik was awarded a graduate assistantship at Pennsylvania State University for the 1955-56 season so that he might work with the freshman team while completing a master's degree.

Sledzik has in the past played pro basketball with the Williamsport Billies of the Eastern League while coaching at Montoursville and formerly played with the old Indiana Legion team, now Indiana AC, an area amateur ball club which has earned an outstanding reputation in those circles.

Following graduation from Penn State, Sledzik was commissioned a second lieutenant in the U.S. Army. Serving for a time, at Fort Bliss, Texas, among his duties was that of athletic and recreation officer and head basketball coach.

First enrolling at the DuBois Center of Penn State following graduation from high school, Sledzik lettered on the campus basketball team there, moved to main campus the following year and earned three letters in the 1950-53 seasons, being selected team captain his senior year.

Sledzik played under then head coach Elmer Gross, then assistant John Egli (who later became head coach at Penn State for a long tenure) and defensive specialist John Lawther. A team-mate was the well known Jesse Arnell, who was later to play for the Fort Wayne Pistons pro team.

A forward, Sledzik broke into the starting lineup for the third game of the season his sophomore year, broke his wrist but then returned to a regular starting berth midway through the campaign. Team record that year came in at 14 wins and 11 losses.

The following year, his junior season, Penn State charted 22 victories against just four defeats—the best record ever until just three seasons ago—and advanced to the NCAA Tournament in Raleigh, where they lost out to favored Kentucky in the opening round.

Capping his playing career with a 17-7 season his senior year (making Penn State 53-22 over the three campaigns he played there), Sledzik copped All-District and All-State honors.

Sledzik ranked second that final year to Arnell in total scoring with 335 points, averaging 17 or 18 tallies per contest. Lou Lamie had set the Penn State scoring record in 1950-51 with 315 markers, both Arnell (over the 500 mark) and Sledzik breaking that. Carver Clinton now holds the honor.

A physical education major at Penn State, Sledzik belonged to Phi Epsilon Kappa senior men's physical education honorary fraternity, Parma Nons senior men's honorary and the Druids athletic honorary as well as Pi Kappa Alpha social fraternity. He was named to Who's Who in American Colleges and Universities.

Graduating from Elders Ridge High, he played varsity basketball there three seasons. Named most valuable player in the section and given honorable mention on the All-State team his senior year, he scored more than 500 points that year, a county record which stood for approximately a decade.

While in high school, Sledzik also played end in football, was a firstbaseman in baseball and competed in the high jump, discus and shot put in track and field.

Two-Million-Volt Accelerator Gives IUP Modern Nuclear Physics Lab

Students at Indiana University of Pennsylvania will be equipped to conduct useful research in the area of nuclear physics as a result of equipment installed at the University early in February. A two-million-volt Van de Graaff Accelerator will provide Indiana University of Pennsylvania with a highly versatile and modern nuclear physics laboratory. Installation also included a radiation shield for the machine.

A basic tool of the nuclear physicist, the Accelerator is capable of generating very stable high voltages. This high voltage is then used for accelerating charged particles to very high velocities. These high velocity charged particles can then be used to cause nuclear reactions.

The Accelerator was purchased from the High Voltage Engineering Corporation of Burlington, Massachusetts, a company founded by the inventor of the machine, R. Van de Graaff, who built his first machine in 1930. Also purchased was a 15° bending magnet, a pulsing accessory, scattering chamber, water moderator, and other smaller items.

The Accelerator is well suited to a wide range of physics research, space environment simulation, graduate instruction, industrial and laboratory tasks, and as a source of many types of radiation. It has also found extensive use by the space environmentalist and has proven particularly useful in radiation and damage studies and effects, as well as in precise detector calibration studies.

The machine will provide the student at Indiana with many interesting areas of basic research, including nuclear structure, sub-critical assemblies, activation analysis, radiation damage, channeling, neutron radiography, radiation chemistry, and space research.

The new Accelerator should be ready for use by March or April of this year. The program will be under the direction of Dr. Jerry K. Eddy of the IUP Physics Department.

Cordier Named To Editorial Board By Columbia Broadcasting System

Dr. Ralph W. Cordier, Dean of the Academic Affairs and Dean of the Faculty at Indiana University of Pennsylvania, has recently been appointed as a member of the Editorial Board of the Columbia Broadcasting System (CBS). As a member of this board, he will take part in a special encyclopedia project.

The Editorial Board is currently working on the adaptation of a unique British publication, the Lord Cavendish Encyclopedia—called **Mind Alive**, to the American market. Rights to the publication were purchased by CBS from the British Broadcasting Company (BBC).

A two page spread that will include a statement by Dr. Cordier concerning the encyclopedia, with appropriate illustrations, appeared in **Life** magazine in November.

This broadside appeared in those issues of **Life** which are released through the mailing centers of Hartford, Connecticut; New Haven, Connecticut; Atlanta, Georgia; Indianapolis, Indiana; Minneapolis, Minnesota; Saint Paul, Minnesota; Tacoma, Washington; Seattle, Washington; Dallas, Texas; and Fort Worth, Texas.

Dr. Cordier has served for a number of years as the history editor of **Encyclopedia Britannica**. In this role he wrote the encyclopedia's sections on United States History and the American Constitution and contributed a number of biographical studies for the work.

Encyclopedia Britannica is this year celebrating its 200th anniversary. For his contribution to the publication, Dr. Cordier has recently been presented with a commemorative medallion.

Summer Institute In Mathematics Approved by National Science Foundation

Indiana University of Pennsylvania will sponsor a third Summer Institute in Mathematics supported by the National Science Foundation (NSF) from June 30 through August 8, 1969. This institute is designed for teachers of senior high school mathematics.

Objectives of the institute are (1) to improve the participant's understanding of modern mathematics through a careful development of three subjects to be offered—elementary analysis, linear algebra and probability and statistics.

(2) To enable the participants to teach similar courses on the high school level, and (3) to enable the participants to effectively plan, teach and evaluate a senior year course in mathematics.

The three courses to be offered as part of the institute are three-credit courses on the graduate level and may be taken for graduate credit. Each participant will elect two of the three courses, with encouragement given to take the two courses in which his background is least extensive.

To be offered along with these three courses for credit will be a non-credit seminar in mathematics education in which all participants will enroll. No one other than institute participants will be involved in any of the three courses or in the seminar.

Purpose of the course in elementary analysis will be to acquaint participants with the contemporary approach to mathematical analysis and to give them mastery of the central ideas of analysis. After completing the course, participants should be able to offer, with understanding, a senior level course in analysis at their respective high schools.

It has been suggested by experts in mathematics education that topics from linear algebra should be included in the high school mathematics curriculum. The primary objective of this course, therefore, will be to prepare participants to teach topics from linear algebra at their schools.

Purpose of the course in probability and statistics will be to give participants an understanding of probability theory and some of its simpler applications to statistics so that they can plan and teach elementary courses in probability and statistics at their schools.

Teaching the three courses, respectively, will be Dr. Dale M. Shafer, Dr. Merle E. Stilwell and Dr. Hoyt, all members of the Department of Mathematics faculty at Indiana.

The seminar in mathematics education will be designed to complement the subject matter preparation which participants will receive in the three formal courses by introducing them to current learning theories and trends in mathematics education.

This seminar should assist them, as leaders, in introducing topics from analysis, linear algebra and probability and statistics into the mathematics programs at their respective high schools. Dr. Shafer and Dr. Stilwell will lead the seminar.

National Assoc. Of Schools Of Music Accepts Indiana As Associate Member

Indiana University of Pennsylvania's Department of Music and Music Education has recently been accepted as an associate member in the National Association of Schools of Music (NASM).

NASM is recognized as the highest accrediting agency for music in the United States. Indiana's music department, which enrolls more than 400 students and includes 35 faculty members, offers four degree programs and expects to offer a doctorate in music education within the near future.

The four existing degree programs include bachelor of science in music education with both choral and instrumental concentrations; bachelor of arts with a major in humanities and concentrations in performance, theory and music literature; bachelor of fine arts in performance; and master of education in music education.

Before being granted this associate membership in NASM, the department faculty completed a self study and evaluation and was visited and examined by Dr. Jack Watson, Dean of the Cincinnati Conservatory, who fully investigated every phase of the department.

Included in his survey were objectives, degrees and curricula, graduate program, quality and number of student body, training and competence of the faculty, library holdings and facilities, physical plant and equipment, admission and retention policy, teaching loads of the faculty, responsibilities and load of the department chairman, general structure and policy making "machinery" of the department.

Dr. Willett, Department Chairman, was granted a certificate recognizing membership as he attended the annual meeting of NASM in Washington. He states, "The next hurdle is to be accepted into full membership, which, hopefully, will come after additional improvements in curricular offerings and staff development."

Blacksmith Named Wrestling Coach To Replace Veteran Lew Shaffer

Bill Blacksmith, graduate assistant and assistant wrestling coach at Indiana University of Pennsylvania for the past two years has been named to the position of head wrestling coach at the university.

Blacksmith replaces Lew Shaffer, who had been head wrestling coach at Indiana for the past 23 seasons, ever since the then Indiana State Teachers College resumed the varsity mat sport on an intercollegiate level at the close of World War II.

Shaffer, who until giving up his coaching duties at the close of the past 1967-68 campaign had ranked as the "dean" of all active IUP athletic mentors in point of service, remains at the university as a member of the Department of Men's Physical Education teaching faculty.

With his duties as head wrestling coach, Blacksmith is also appointed a part-time member of the men's physical education faculty, while at the same time teaching elementary physical education at the Homer-Center School District of Homer City in Indiana County during the day.

Recently granted a master of education degree in counselor education by Indiana University of Pennsylvania, Blacksmith is a graduate of Lock Haven State College, earning a bachelor of science degree in health and physical education there.

He has been selected to the National Association of Intercollegiate Athletics (NAIA) Distinguished Athlete Association and is certified as a Pennsylvania Interscholastic Athletic Association (PIAA) wrestling official. Blacksmith is a member of the American Association of Health, Physical Education and Recreation (AAHPER), NEA and PSEA.

Former Keith School Students Plan Reunion In June, 1969

Former Keith School students have planned a reunion for June 7, 1969 on the I.U.P. campus. The event will mark the closing of the school in its present location and the opening of the new Learning Research Center. Dr. Alvin J. Stuart, Director of Keith, has selected Robert J. Carson, Class of 1946, as Committee Chairman.

All persons having attended the Model, Training or Laboratory School, as it has been called, are asked to contact Mrs. Elsie Smith St. Clair for details. Her address is 164 Meadow Wood Road, Indiana, Pennsylvania, 15701.

CLASS NOTES

1895

- Mrs. Martha E. McCabe died Sunday, November 3, 1968.

1897

- Fannie Roller passed away Sunday, January 19, 1969 in Detroit, Michigan.

1898

- Edgar C. Davis passed away at Salem, Virginia in July 1968.

1899

- Blanche Creese Watson died October 21, 1968.

1901

- Mrs. Edith Buck Fisher died January 2, 1969 in Grand Rapids, Michigan.

- Mrs. Carleton A. TerBush (Lily Estelle McKain) of Drexel Hill, Pennsylvania passed away De-

cember 17, 1968.

1902

- Mrs. W. E. Harte (Anna P. Frye) of Greensburg, Pennsylvania passed away recently at her late home.

1905

- Lida R. Barns died June 3, 1968 in Uniontown, Pennsylvania after a long illness.

- Mrs. Clara Wagner Wilson passed away April 11, 1968 at Seal Beach, California.

1906

- Mrs. Minnie A. Martin of Palatine, Illinois died Monday, January 27, 1969.

1908

- Mrs. Ella B. (Glemser) Lloyd of Largo, Florida passed away

Friday, November 22, 1968 after a lengthy illness.

- **Mrs. Agnes Shrum Pollock** of Indiana, Pennsylvania died Friday, December 13, 1968.

- **Miss Caribille Cook** (1908 and 1912) died Monday, December 2, 1968.

- **Mrs. John D. Renshaw** (Ada Woodhead) died August 15, 1968.

- **Mrs. Florence Schaub Ray** of Essington, Pennsylvania died Thursday, September 19, 1968.

1909

- **Mr. Clair A. Stuchell** passed away April 21, 1968.

1911

- **Minnie (Jones) Sumpter** of Munhall, Pennsylvania passed away May 10, 1968.

1912

- **Ruth (McGee) Balmer** of McGee's Mills, Pennsylvania died May 1, 1968.

1914

- **Mrs. Kathleen (Bailey) Foust** died November 5, 1968.

1915

- **Mr. Thomas D. Sheriff** died December 29, 1968.

1916

- **Mrs. Margaret Wilson Shea** of Indiana, Pennsylvania died Monday, December 16, 1968.

- **Mrs. Elizabeth G. McCormick** of Pittsburgh, Pennsylvania died May 14, 1968.

- **Miss Mary E. Reardon** of Braddock, Pennsylvania died October 2, 1968. She had been a teacher in the Braddock Schools for 45 years.

1917

- **Mrs. Lee Colwell** (Madge Dick) died August 15, 1968 in Missoula, Montana.

1918

- **Sarah Hanna Canan**, a teacher in the Johnstown Schools for 44 years, died August 18, 1968.

1922

- **Mrs. Mary H. Ambrose**, a teacher in the Fairfield Township Schools for the past 42 years, was honored by the Fairfield Parent Teacher Association on May 15, 1968 for her long and devoted service to the children of the district. The honor came in the form of a Tribute presented by the PTA Group.

1927

- **Mrs. Mary Truby McCormick** of Indiana, Pennsylvania died Sunday, February 2, 1969. Mrs. McCormick was the wife of Harold C. McCormick, currently Business Manager at IUP.

- **Mrs. Mary Fallon Pardini**, principal in the John Miradeo School in Greenfield, Pennsylvania for the past ten years, who died recently, was honored by a memorial service at the school by the faculty, students, and members of the Parent-Teachers Association. A life-size portrait of Mrs. Pardini and a bronze plaque were presented by the groups to the school, where they will be placed permanently in the center hall. In all, Mrs. Pardini had served as a public school principal for 28 years.

- **Mrs. Bernadine Livingston Delvin** recently retired after spending 41½ years as a teacher. Upon her retirement, Mrs. Delvin was honored at a dinner and reception at Glen Rock, New Jersey, where she had taught the past 12 years. Retirement plans include writing children's books and traveling. Very active in civic and professional organizations, Mrs. Delvin received many honors, tributes and gifts upon the occasion of her retirement, among them a Professional Award of Merit from the New Jersey Education Association.

1928

● **Mrs. Sara K. Slick** retired on September 6, 1968 after 25 years of teaching, 23 in North Braddock and two in Braddock Hills.

● **Rev. H. Carlyle Carson**, a member of the ministry for nearly forty years, the past four years at Neville Island Presbyterian Church, retired in November, 1968. He and Mrs. Carson are presently living at Penn Hills.

1929

● **Mrs. Clyde I. Miller**, currently of Wyomissing, Pennsylvania was recently featured in the Reading, Pennsylvania, Eagle as "Cook of the Week." Featured in the lengthy newspaper feature article was Mrs. Miller's recipe for sour cream tea cookies and butter cream frosting.

1930

● **Mr. Bernard J. McCormick** was recently appointed Superintendent of the Pittsburgh, Pennsylvania City Schools, succeeding Dr. Sidney P. Marland, Jr. Mr. McCormick, who has served the Pittsburgh Public Schools for the past 38 years, had served as deputy superintendent of the system since 1965. His career in education, all of which was spent in Pittsburgh, included teaching and principalships in several schools before he joined the central administration in 1962. In addition to holding membership in a number of professional education organizations, Mr. McCormick has served as a member of the Advancement Placement Committee of the College Entrance Examination Board and of the Evaluating Committee of the Middle States Association of College and Secondary Schools. He has also lectured across the nation on advanced placement studies and programs for gifted children.

1932

● **Mrs. Elda May (Berkebile) Rice** died March 25, 1967.

● **Mrs. Ella Reynolds Diefenderfer** of New Castle, Pennsylvania died September 8, 1968.

1935

● **Mrs. M. Josephine Winslow** recently delivered a paper on "Team Teaching of Geography in the Elementary School" at the Annual Meeting of the National Council for Geographic Education at Kansas City, Missouri. A teacher in the Indiana, Pennsylvania Public Schools, Mrs. Winslow previously presented a paper on the same subject at a meeting of the Pennsylvania Council for Geographic Education.

● **Paul L. Pfeiffer**, associate professor of marketing at Kent State University, was recently elected second vice president of Sigma Tau Gamma Fraternity. Pfeiffer, who had served the international organization as Educational Adviser since 1962, will serve in his present post until 1970.

1939

● **Mr. Stephen Gendich** of Birmingham, Michigan died October 31, 1968.

● **Mrs. Edna M. Smith** (Edna Mae Smith), widow of Kenneth T. Smith, and Henry F. Towns were married October 5, 1968. They reside at 956 West 10th Street, Erie, Pennsylvania.

● **Mrs. Barbara Wood Reamer** of Arlington, Virginia is on a one-year sabbatical leave during which she is completing her M.A. in Art at George Washington University and the Corcoran School of Art. Several exhibits of her work will follow her graduation.

Mrs. Reamer and her husband, Charles, (1940) celebrated a

27th wedding anniversary on December 27, 1968. Mr. Reamer passes along the word that the "girls at IUP are a sturdy group, as wives and mothers."

● **Mr. Elzie M. White** was recently appointed a director of the Winona Lake (Indiana) Christian Assembly Corporation, which operates the Winona Bible Conference. Mr. White is also a trustee of Grace College and Seminary at Winona Lake.

1940

● **Joseph F. Shoenfelt**, Associate Professor of Art at State University College at Oswego, New York, died October 14, 1968.

1941

● **James L. O'Toole**, executive assistant to the assistant postmaster general for operations and past president of the National Association of Postmasters of the United States, recently headed a task force on equal employment opportunity for postal workers. Postmaster General W. Marvin Watson, called the report of the task force a major achievement and said that the entire postal service owes the group a debt of gratitude for their outstanding work. Mr. O'Toole served as a member of the IUP Board of Trustees from 1962 to 1968. He is presently affiliated with the Postal Service Institute in Bethesda, Maryland. The Institute serves as the training arm of the U. S. Post Office Department.

1942

● **Army Colonel James R. Koenig** of Fairmont, West Virginia is attending the U. S. Army War College at Carlisle Barracks, Pennsylvania. The War College prepares senior officers of all the services, as well as top officials in government agencies, for staff and command positions in the field.

1943

● **Eleanor M. Tindiglio** has assumed the position of business education teacher with the Yeadon, Pennsylvania Schools.

1945

● **Mrs. Wanda Levergood Barricklow** of Dickerson Run, Pennsylvania, was awarded a Master of Education Degree in Counselor Education at Indiana University of Pennsylvania on January 12, 1969. Mrs. Barricklow prepared her research project on the subject: "An Investigation of the Relationships Between Tested Intelligence and the Level of Stated Occupational Goals of Twelfth Grade Students in the Connellsville Area Schools."

1946

● **Mrs. Nancy Race Warner** has presented two volumes to the IUP Rhodes R. Stabley Library in honor of her mother, Mrs. Agnes Campbell Race (1908 and 1911). Titles of the two books are: **Great Gardens of the Western World**, and **America's Great Private Gardens**.

Harry W. Ray of Bellwood, Pennsylvania was recently awarded the Doctor of Education Degree at the University of Pittsburgh in August, 1968. Dr. Ray is presently the supervising principal of the Bellwood-Antis School District. The title of his dissertation was "Written School Board Policies in Selective School Districts in Pennsylvania." His brother, John, (1951) was awarded the Doctor of Philosophy Degree by Indiana University (Bloomington) in June, 1968.

1947

● **James R. Bennett** of Greensburg, Pennsylvania was recently appointed Assistant Superintendent of Indiana County Schools. He assumed his new post on September 1, 1968.

1949

● **Mr. Ronald James Corrigan** was awarded a Doctor of Education Degree in Secondary Education at the December 6, 1968 Commencement at Pennsylvania State University.

Mr. Franklin R. Wolfe of Chambersburg, Pennsylvania was granted the degree of Master of Education by Shippensburg State College on November 23, 1968.

1950

● **Major Charles W. Tuck** of Homer City, Pennsylvania has been appointed chief of the medical education branch, Air Force Institute of Technology, Wright-Patterson Air Force Base, Ohio.

Mrs. Ruth F. Funk has been named to "Who's Who Among University Women." She is presently extension home economist for Beaver County, Pennsylvania.

Capt. Terry L. Wagner was recently awarded the Bronze Star Medal near Dong Tam, Vietnam, for meritorious service in ground operations against hostile forces.

1965

Three 1965 Indiana graduates were awarded Master's Degrees at commencement exercises held at Indiana University of Pennsylvania January 12, 1969:

Mrs. Ruth Miller Kunkle, of Indiana, Pennsylvania, was awarded a degree of Master of Education in Elementary Education.

Mrs. Joyce Collins Harmon of Butler, Pennsylvania was awarded a Master of Science degree in Mathematics. She prepared her research project on the subject: "Orthogonal Polynomials."

Mrs. Judith Geyer Kovolchick of Indiana, Pennsylvania received a Master of Education degree in Elementary Science Education. Her research project was on the subject: "A Survey to Determine the Specific Knowledge, Acceptance, and Utilization of Film Loops by the Teachers of Indiana County."

Matilda A. Godish of Lilly, Pennsylvania was awarded the degree of Master of Education in Elementary Education at Pennsylvania State University on September 1, 1968. She remains at Penn State as a graduate assistant working toward a doctorate.

Jacqueline W. Weaver of Scottsdale, Pennsylvania recently received a Master of Arts in Education degree from Lehigh University.

Nancy McGuire received her Master of Education in Biology at commencement exercises held at Indiana University of Pennsylvania January 12, 1969.

April Benasutti Santicola (1965) and **Francis "Butch" Santicola** (1966) became the parents of a son, Michael Francis, on October 16, 1968. They reside at 202 Linmar Plan, Aliquippa, Pennsylvania.

Mr. and Mrs. Earl P. Morrow (Sally Purdy) became the parents of a daughter, Nancy Louise, on November 11, 1968. They reside at 171 Cochran Drive, Monaca, Pennsylvania.

Nancy E. Kozak, a teacher in the Mars Area School District, received a Master of Education degree from the University of Pittsburgh in August, 1968. She was recently featured in an article which appeared in the Butler County News Record.

1966

Three 1966 IUP graduates were among those who were awarded advanced degrees at commencement exercises on January 12, 1969:

Paul S. Farcus of Walston, Pennsylvania was awarded a Master of Arts degree in History. As his research project, Mr. Farcus prepared three seminar papers on the subjects: "(1) Harmonite Society. (2) Origins of the Cold War. (3) Jacksonian Democracy and the Intellectuals."

Margaret A. Farrah of Everson, Pennsylvania received a Master of Arts degree in History. As her research project, Miss Farrah prepared her three seminar papers on the subjects: "(1) Project Head Start. (2) Industrialization in Mexico. (3) Nazi-Soviet Non-Aggression Pact of 1939."

Annie Ingran Rochelle of Irwin, Pennsylvania, was awarded a Master of Education degree in Counselor Education. Mrs. Rochelle prepared her research project on the subject: "Referral Agencies Available to School Nurses in Indiana County."

Wayne M. Shipe received a Master's Degree in Music from Indiana University (Bloomington) School of Music in September 1968.

Constance L. Parker of Kutztown, Pennsylvania and **Terry R. Johnson** of Tatamy, Pennsylvania were married December 23, 1967. They presently reside in Grand Rapids, Michigan.

Harvey M. Weitzel has enrolled at the Lutheran Theological Seminary at Gettysburg, Pennsylvania, where he is studying for the degree of Bachelor of Divinity.

Mary Helen Turner and **David R. Smail** were married on December 16, 1967. The couple resides at 22453 Lake Road, Rocky River, Ohio.

Sergeant Roger G. Williams of Charleroi, Pennsylvania has been assigned to Kure Beach, North Carolina, where he serves with the Aerospace Defense Command.

Esther Dadigan of Greensburg, Pennsylvania has been named "Princess of Plastics" by the plastics industry. In her role as "princess," Miss Dadigan is traveling about the country telling people about the wonders of plastics — present, past, and yet to come.

Sandra Klein Schindler is presently teaching art in the Los Angeles City Schools. She was married to Stewart D. Schindler of Los Angeles in April 1967.

Captain Martin Wayne Miller, Jr. of Pittsburgh, Pennsylvania has enrolled at the U.S. Army Missile and Munitions Center and School at Redstone Arsenal, Alabama.

Lt. Dale A. Reigal of Wernersville, Pennsylvania recently completed a supply officer course at the Quartermaster School, Fort Lee, Virginia.

Signe Karen Iseman of Wexford, Pennsylvania was married to Jan Edwin Hartz of West Mifflin, Pennsylvania on August 17, 1968. The couple resides at 790 Jefferson Avenue, Washington, Pennsylvania.

1967

Two 1967 Indiana graduates were among those who received advanced degrees at exercises held at Pennsylvania State University on September 1, 1968:

Victoria M. Merle of Clearfield, Pennsylvania received a Master of Arts Degree in English.

Patricia S. Newell of Wyncote, Pennsylvania received the degree of Master of Science in clothing and textiles.

Three 1967 Indiana graduates were awarded advanced degrees at commencement exercises held at Indiana University of Pennsylvania January 12, 1969:

David R. Gilchrist of McKeesport, Pennsylvania received a Master of Arts Degree in History. As his research project, Mr. Gilchrist prepared two seminar papers.

James E. Kelley, Jr. of Mt. Pleasant, Pennsylvania, received a degree of Master of Arts in Counselor Education. He prepared his research project on the subject: "A Comparison of Urban and Rural Womens' Perceptions of the Environment at Indiana University of Pennsylvania."

Concetta Adornato Stewart of Indiana, Pennsylvania was awarded a Master of Education Degree in Counselor Education. Mrs. Stewart prepared her thesis on the subject: "A Survey Study of Indiana University of Pennsylvania Students' Attitudes to Determine a Need for Extending Guidance Services."

Miss Victoria Merle of Clearfield, Pennsylvania has been appointed to the faculty of the DuBois Campus of the Pennsylvania State University. She will be working in the English Department.

Lt. Lee G. Borts of Punxsutawney, Pennsylvania has been awarded pilot wings upon graduation at Vance Air Force Base, Oklahoma. He will serve in the Philippines as a pilot in the Pacific Air Forces.

Airman Leonard D. Eagleson of Leechburg, Pennsylvania has been assigned to Fairchild Air Force Base, Washington for training and duty in the administrative field.

Ensign Robert M. Morgan, Jr. of Glenshaw, Pennsylvania and **Mary Suzanne Bell** (who also attended IUP) of Blairsville, Pennsylvania, were married on August 24, 1968. The couple presently resides in Virginia.

Thomas J. Hassler of Indiana, Pennsylvania and **Rebecca Lee Rose** of Kane, Pennsylvania were married on January 25, 1969. The couple is presently residing in Pittsburgh, Pennsylvania.

Two 1967 graduates, **Jack R. Stennett** and **Allen C. Kirschman**, are currently enrolled at the Lutheran Theological Seminary, Gettysburg, Pennsylvania where they are studying toward a Bachelor of Divinity degree.

Mr. and Mrs. John G. Constant (Sally Espy), both 1967 graduates of IUP, have both been awarded \$5000 Kodoly Fellowship Grants which will permit them to spend two years in study of the music curriculum of Hungary.

First Lieutenant Harry L. Sharp of Phoenixville, Pennsylvania has been awarded the Distinguished Flying Cross for heroism in action while engaged in aerial flight in connection with ground operations against a hostile force in Vietnam.

Airman Charles A. Thorne of Industry, Pennsylvania has been assigned to Keesler Air Force Base, Mississippi for training as a personnel specialist.

Mrs. Adrienne Smith Prinzler of Greensburg, Pennsylvania and a retired Hempfield Area School District teacher, died recently at

the Westmoreland County Hospital in Greensburg.

Peoples Natural Gas Company has named two 1968 graduates home service representatives. **Jane Ann Montgomery** will serve the Altoona, Tyrone, Hollidaysburg and Ebensburg area; **Carol Ann Borgoyne** will serve the Kittanning, Vandergrift, New Kensington and Indiana area.

Thomas Craig Sipe has accepted a position in the Norwin, Pennsylvania Schools. Mr. Sipe, whose hometown is Irwin, will teach English.

Barbara Lynn Hartzell of Slippery Rock, Pennsylvania has accepted a position in Lancaster County, Pennsylvania, as a speech therapist.

Cheryl Lane of Pittsburgh, Pennsylvania has been named by West Penn Power as home service representative in the company's Loyalhanna (Latrobe, Derry, Ligonier) division, headquartered in Latrobe.

Two 1968 IUP graduates received graduate degrees at commencement held at Indiana January 12, 1969:

Anthony J. Nastase of Indiana, Pennsylvania was awarded a Master of Education Degree in Biology. Mr. Nastase prepared his research project on the subject: "Habitat Investigation of the Slate-colored Junco in Northeastern Indiana County, Pennsylvania."

Richard O. Salsgiver of Blairsville, Pennsylvania received a Master of Arts Degree in History. As a research project, Mr. Salsgiver prepared research papers.

Vivien E. Davis was married recently to Stuart Estes. The couple presently resides at 170 Broadway Drive, Pittsburgh, Pennsylvania.

Charlene Rose Snyder of Cherry

Tree, Pennsylvania and Paul George Plowcha of Homer City, Pennsylvania were married October 12, 1968. The couple resides at Beaver, Pennsylvania.

Sherry Ruth Shields and **John Pulsinelli**, both of Indiana, Pennsylvania, were married August 23, 1968. The couple presently resides at West Lafayette, Indiana where the groom is a senior at Purdue University and the bride a kindergarten teacher.

Robert Thomas Fello of Iselin, Pennsylvania and Joyce Ann Sadosky of Clarksburg, Pennsylvania were married August 24, 1968. The couple resides at 206 Green Street, Pittsburgh, Pennsylvania.

Carol Louise Schorman of Indiana, Pennsylvania became the bride of James Wendell Beran of Pittsburgh, Pennsylvania on September 7, 1968. The couple plans to reside in Pittsburgh.

Three graduates of Indiana have recently been appointed Peace Corps Volunteers:

Mrs. Patricia Braymer Boyce is one of 48 new Volunteers who will work in Malawi to further health education throughout the country.

Mr. and Mrs. John Dickson Stephens (Barbara Ann), both 1968 graduates of IUP, will serve in Guatemala, where they will work on a municipal development program on Guatemala's south coast. Their address: c/o Peace Corps, American Embassy, Guatemala City, Guatemala.

Linda and Laura McNees, twin sisters from Imperial, Pennsylvania are at the University of Oklahoma working on masters' degrees in mathematics. They plan to be there for the two year master's program which coordinates mathematics from kindergarten through high school.

Activities of Interest to Alumni

March 17—Artists-Lecture Series
— Princeton Chamber Orchestra—Fisher Aud.—8:15 p.m.

March 26—Artists-Lecture Series
—"Opera Reviews"—James Schwabacker — Cogswell — 8:15 p.m.

May 22—Second Semester ends.

May 24—Alumni Day

May 25—Commencement — Dr. Andrew Cordier—Acting President—Columbia University — 2:30 p.m.

Four Former Faculty Members Pass Away During Past Year

Miss Mary Muldowney, formerly of Indiana, was stricken with a heart attack and died on Wednesday, February 26, 1969, in New York City.

Miss Muldowney came to Indiana from her teaching position in Pottsville in the fall of 1925 and remained as a teacher at the Indiana University of Pennsylvania until August of 1950.

She was known throughout Pennsylvania for her inspired direction of choirs and particularly for her direction of the choir at the Indiana University of Pennsylvania. She often acted as guest conductor of choirs and consultant for music workshops through

the United States.

After retiring from the Indiana University of Pennsylvania music department she taught in the music department of New York University for several years and later did part time teaching at the Duchesne Residence School in New York City and at Manhattanville College in White Plains, New York.

Helen F. Egleston, a member of the English Department at Indiana University of Pennsylvania from 1927 to 1942, died October 12, 1968. She had been a Washington, D.C. resident for the past 15 years.

Mrs. Egleston, a native of Clear Lake, Iowa, had also taught English and history in the Montana public schools.

She was the mother-in-law of Charles A. Horsky, who served Presidents Kennedy and Johnson as a special adviser on National Capital affairs.

Mrs. Anna T. Wink, first director of the computer center at Indiana died December 9, 1968 at Bethesda, Maryland following a lingering illness.

A 1927 graduate of Gettysburg College with a major in mathematics, she completed the requirements for a masters degree in rural sociology and agricultural economics at Pennsylvania State University.

She joined the Penn State staff in 1941 as a researcher in rural sociology and transferred to the computer center there when this department was established in 1956.

She came to Indiana in 1963 and retired in June 1968.

Miss Helen Pence, Cooperative Training Teacher at the Thaddeus Stevens School, Indiana from 1922 to 1928, died July 4, 1968.

After leaving Indiana, Miss Pence taught in Illinois. Following her retirement a number of years ago, and following the death of her mother, she had lived at Evenglo Lodge, a home for the aged, at Pontiac, Illinois.

Dr. A. Pauline Sanders, a native of Cresson, Pennsylvania and retired chief of staff, home economics, of the Pennsylvania State Department of Public Instruction, died at her home in Irvona, Pennsylvania Tuesday, October 22, 1968.

Head of the Home Economics Department at IUP for a number of years, Dr. Sanders began her teaching career in 1917 in Coalport, Pennsylvania. She also served as a teacher in the Johnstown and Monroeville Schools and founded the home economics department at Seton Hill College, Greensburg, before coming to the then Indiana State Teachers College.

She served with the Pennsylvania Department of Public Instruction from 1943 to 1953, at which time she retired from the post.

Following her retirement, Dr. Sanders served as a teacher in the Glendale Area School District, instructor in nutrition at Altoona Mercy Hospital and more recently as consulting dietician at Miners Hospital, Spangler, Pennsylvania.

A former consumer consultant for the State Milk Control Commission, she was one of the organizers of the state's Future Homemakers of America.

She received a bachelor of science degree at Lock Haven State College, master's degree from Columbia University, New York, and doctor of bio-chemistry from Pennsylvania State College.

Dr. Sanders was president of the National Society of Children of the American Colonists, and charter member of the Clearfield County Historical Society and the Beccaria-Coalport-Irvona Business and Professional Women's Club.

Active in Red Cross work, she was a director of the Moshannon Chapter. She also was active in the Allegheny Mountain Heart Association, Pennsylvania League for Nursing, Central Pennsylvania Dietetic Association and Girl Scouts.

Activities of the Units and Groups

PITTSBURGH UNIT

Our Pittsburgh Unit members eagerly looked forward to our third fall meeting on November 12, 1968. We had a fine turnout for the September and October meetings. During the latter one, Mrs. Allen Fluent entertained and fascinated us with her attractive hand - made Christmas decorations. She demonstrated how beautifully these could be made right in our own homes.

Many of our retirees have been free to enjoy autumn trips. Our president, Mrs. Caroline Anderson Jackson, has just returned from a trip to Japan. Helen Brennan, Jeanine DuFresne, and Gladys Elcessor attended the Pennsylvania State Retired Teachers' Association Convention in Harrisburg October 7, 8, and 9. The latter continued on East admiring the colorful foliage enroute to the seashore. Later in October Helen Brennan and Jeanine DuFresne spent a delightful week in New York with the Pittsburgh College Club Theater Four. Mrs. Elizabeth Murphy Clinkenbeard left by plane November 6 for a tour of Australia and the South Pacific Islands.

The faculty, students, and Parent Teachers' Association of Minadeo School held an impressive Memorial Service on November 6, 1968 to honor Mrs. Mary Fallon Pardini who was principal of that school for the past 10 years until her death on May 21, 1968. Mrs. Pardini, a graduate of Indiana University of Pennsylvania and the University of Pittsburgh, was an outstanding administrator. She was listed in "Who's Who in American Women."

She had been a public school principal for 18 years prior to serving as Minadeo's principal. The faculty, students, and Parent Teachers' Association members at Minadeo presented a portrait and a plaque which were placed permanently in the center hall of the school to perpetuate the memory of their deceased principal whom they highly revered.

Our last big event of 1968 for the Pittsburgh Unit was our Christmas dinner at the Women's City Club in the William Penn Hotel on December 10, 1968. There were fifty present in the attractively decorated dining room. Lovely hand-made favors created by Anna Dixon Wright and Mary Blander Weinstein and their committee graced each one's place at the dining table adding a colorful and festive atmosphere in keeping with the holiday season.

Following the delicious dinner, an interesting program of charming Christmas poetry and stories was delightfully presented by Reverend Robert S. Humes, pastor of the Unity United Presbyterian Church. As we listened intently to the pleasant program, a happy nostalgic feeling of our long-ago childhood Christmas holidays flashed through our memories. Of course we all enjoyed singing the Christmas carols too.

We were very happy to extend a hearty welcome to seven masculine guests at our dinner party. Many of our faithful members were unable to attend due to illness or being hospitalized due to accident. Flossie Wagner Sanford was in a serious auto accident

and Helen MacWilliams fell and broke her leg while entering a taxi. Both wish to thank their many Indiana friends who sent cards of cheer to them while they recuperated at the hospital. Helen MacWilliams is now in Ivy Nursing Home at 5609 Fifth Avenue, Pittsburgh, Pa. 15232 and would be pleased to hear from any of her Indiana friends.

We were pleased to welcome back Armitage Lysle Coburn and Marie Scott Murray at the Christmas dinner. Both had been unable to get out to our meetings due to lengthy illnesses. At the present time we are sorry to hear that Marie Scott Murray recently fell and is back once again in Doctor's Hospital, 215 S. Negley Avenue, Pittsburgh, Pa. 15206 and would be pleased to hear from her kind Indiana friends.

The next big event that our members always look forward to eagerly is the Annual Banquet which will take place this year on March 18, 1969 at the Pittsburgh College Club. We will hope to see many of you there and also at our regular monthly meetings too.

PITTSBURGH- NORTH-BOROS UNIT

The Pittsburgh North - Boros Unit of the Alumni Association of Indiana University opened its new season's activities at Kaufmann's Dining Room on Saturday, September 14 at 12:30. It really was a Fall Get-Together with exchange of stories about the delightful summer trips and experiences, as well as the reception of the University dues for the year September, 1968 to May, 1969.

Miss Catherine Taylor, the president, called the meeting together by calling upon Lillie List-Herman to pronounce the Invocation and Miss Louise Crooks to read the minutes of the last meeting.

We were all pleased to see Miss Margaret Bardonner, a former active member, who now has her residence at the Lutheran Church Home in Mars, Pennsylvania. She was Miss Taylor's week-end house-guest.

Plans were made for the Benefit Bridge Luncheon which took place on October 26, at 12:30 P.M. in the new "B. & G." dining room at Northway Mall on McKnight Road on the North Side. It proved to be a very delightful affair.

The committee in charge of affairs included Mrs. J. S. McKain and Miss Beatrice Jeffries. Mrs. Lorraine Thompson arranged for the table prizes, which were delightful pocket - sized perfume bottles with funnels for filling. The luncheon was delicious and the sixteen tables of play made for a delightful and profitable afternoon.

Everyone was pleased with the new year books compiled by Mrs. Carl F. Bauer, and Mrs. James S. McKain, with our president in charge of the printing.

The Unit extends its heartfelt sympathy and empathy to our member, Mrs. Clara Anderson-Plank and her daughter, Miss Marion Plank, in the loss of their husband and father, Dr. Thomas Z. Plank on November 1, 1968.

Heartiest congratulations go from all of us to Dr. and Mrs. Willis Pratt, upon the completion of such a wonderful and successful career on our great Indiana campus. As they remain on the periphery of our beloved Univer-

sity, may they revel in the joys of seeing the results of a dedicated work well done. Our best wishes for health and happiness go with them always.

Our Unit's District Chairmen are Mrs. J. G. McGammon, Miss Mildred Pauch, Mrs. Fanny E. Baird and Miss Louise Crooks.

JEANNETTE UNIT

On October 15, members of the Jeannette Unit were welcomed to Lakeview Lounge by a huge electrically lighted sign which read **Welcome Jeannette Unit Indiana Alumni**. This was our first meeting of the new club year. Following the delicious dinner President Agnes Jamison presided at the business meeting. She introduced the following new members: Mrs. Richard Wurzell, Mrs. Alice Davenport, Linda Schaffer, and Margaret Ketter.

Mrs. A. Robert Cestello reported on the General Alumni Testimonial Dinner honoring Dr. Willis Pratt which she and Mr. Cestello attended. What a pleasure it was for us to listen to Angie's fine report of this memorable occasion! It was especially pleasing to hear all the fine tributes paid to Dr. Pratt.

Mrs. Peter Wannett represented the group at the General Alumni meeting. Karlee gave her usual fine report. Of special interest were the many fine projects which the General Alumni Foundation is supporting.

Kathleen Gannon presented an illustrated talk prepared by Bell Telephone. Called **Pennsylvania Showcase**, the program took us on a guided tour of the William Penn Memorial Museum in Harris-

burg. Since its dedication in 1965, the museum has had visitors from within and out of the state and has become a major cultural research center.

The invocation was given by Mrs. Anna Buck. Mrs. Rolf Hansen was chairman of the dinner arrangements and entertainment.

WASHINGTON, D.C. UNIT

Our first fall meeting, September 7, was a "buffet-picnic" given at the lovely retreat (Do-Lu-Ra) of our President, Miss Ramale, situated in the Blue Ridge Mountains.

The weather was ideal and the view of the countryside from the enclosed glass veranda was breathtaking.

The food, including our grilled hamburgers—done to an appetizing turn on the outdoor charcoal grill by Mr. Donald Palmer, was varied and delicious.

An enjoyable, leisurely, relaxing, and the usual "verbal" afternoon was had by all.

An added note of interest, (which made the afternoon more interesting) and which will be of interest to many other alumni was, an announcement which had been received by Miss Ramale, of the marriage August 30, of Mrs. Louise Gunlock Weathers of Alexandria, Virginia to Mr. William Vallie Whittington (an honorary member of our Alumni Association) of Washington, D.C. Our association extends felicitations to Mrs. Whittington, congratulations to "Val" and our sincere and best wishes for their future happiness.

Those in attendance besides our President were: Mr. and Mrs. Robert Jarvie, Mr. and Mrs. John

Shaw, Mr. and Mrs. Herbert Smith, Mrs. Warren Funk, Mrs. Guy Gienger, Mr. and Mrs. Donald Palmer and sons Donald and Christopher, Mrs. James T. Vail and Mr. and Mrs. Charles Reamer.

Our Annual Alumni Dinner was held November 2 in the Shakespeare Room of the Piccadilly Restaurant, and again, a congenial and delightful evening was spent reminiscing and meeting old friends and acquaintances and enjoying good food.

Our president, Dorothy Ramale gave a brief report on the Alumni Homecoming on the campus which she attended in October. We learned not only of the current activities that are taking place at the University but of the numerous and remarkable plans that are in store for the future. We were sorry that Grace O'Brien Lehman was not able to attend as she had planned, but unfortunately, she had an accident and broke her arm and shoulder, so had to be hospitalized. She is now "on the mend" and able to be with us again.

The following members and guests attended the dinner: Miss Dorothy Ramale, Mr. and Mrs. John Shaw, Mr. and Mrs. Robert Jarvie, Mr. and Mrs. Graham Lehman, Mr. and Mrs. Donald Palmer, Mr. and Mrs. Donald Bishop, Mrs. Warren Funk, Mr. and Mrs. Guy Gienger, Mr. and Mrs. Walter Bishop, Mr. and Mrs. Joseph Genovese, Mr. and Mrs. Charles A. Reamer, Mrs. Forrest Shaffer, and Mrs. James T. Vail.

The Alumni Workshop held November 16 at Millersville State College was attended by Miss Ramale and Charles and Dorothy Reamer. Also — an invitation is extended to all who can attend

our annual All Pennsylvania College Alumni Luncheon at the Marriott Twin Bridges Motor Motel.

With the Christmas season approaching, we are looking forward to a Christmas Party at the home of Harriet and John Shaw in Arlington, Virginia.

INSTANTO 1912

It was in November of 1947 that Adelaide Ramsay Clarke arranged a luncheon for members of the Class of 1912 of Indiana State Normal School, to be held at the Congress of Clubs on lower Penn Avenue, Pittsburgh, Pennsylvania.

In May of 1948, Nellie Pardoe and Edith McWherter invited class members to a luncheon in Edith's home in Greensburg. There it was decided that we should meet the first Saturday of the months of May and November, each year.

November 2, 1968, found us at the Fairfax Hotel in Pittsburgh, for luncheon, marking the twenty-first year of such reunions. There were twenty-two classmates and one guest present.

After a delicious lunch, the Committee for the Day gave reports: Sara Stackhouse Esch on the finances, and L. Verne Martin McKee on regrets. We learned that Edith Buchanan Wolfenden is on another European trip, that Mabel Munshower Zehner is making preparations for a hop to Honolulu and other Hawaiian parts, and that Florence Wallace is doing some teaching. Cards were signed to those who are ill, the shut-ins, and those who have lost dear ones.

Then Janet Little Banfield pre-

sented orchids to Helen Brennan and Adelaide Ramsay Clarke, both past Presidents of the General Alumni Association of Indiana. She spoke of their faithful and continuous activity on Executive Committees, in local units, and of Helen's association with P.S.E.A. and other educational groups.

Adelaide gave reports on the 50th Reunion Gift Fund and the Memorial Fund. She also commented on a recent column by Win Fanning, who in giving a report on the T.V. series, Julia, paid a touching tribute to his own mother, our classmate, Emily Lauer Fanning Barry. He mentioned the attachment between his mother and himself, when his father, a pilot in World War I, was killed, and he was too young to understand, an attachment more close than in less tragic circumstances.

Helen reported on the enjoyable occasion of the Testimonial Dinner for Dr. and Mrs. Pratt.

Two of our members have passed away since our last meeting: Zella Hastie Chapman and Agnes Young Wright. We were also saddened by the sudden death of the husband of Clara Anderson Plank.

It was good to see Hazel Hamilton Paxton and Jeannette Allison Carlisle, who came from Washington County with Janet Banfield.

May, 1969 will find us again at the Fairfax, when Annabel Livingston McKerahon, Mery Bert Kincaid and Lilly List Herman will make the arrangements.

McKEESPORT UNIT

The fall dinner meeting of the McKeesport Unit of the Indiana University of Pennsylvania Alumni

Association took place in Paule's Lookout and was highlighted by a review of a dinner held at the school for Dr. Willis Pratt who is retiring as president after 20 years.

Mrs. Nell Chaplain described the event and noted that the school has become the sixth largest institution of higher education in the Commonwealth during his years as President. He will be replaced by Dr. William Hassler, now dean of the School of Arts and Sciences at Indiana.

A membership drive was instituted with Miss Dorothy Porter as chairman. Attention was called to the annual scholarship given to an area student for study at Indiana.

PHILADELPHIA UNIT

Fifteen members of the Philadelphia Unit met at Shoyer's Restaurant at 412 Arch Street on Saturday, October 26, 1968 for luncheon.

After the luncheon we took a walking tour of interesting places in the area, namely, Christ Church, Elfreth Alley, Independence Mall, Congress Hall, Independence Hall and the observation tower on top of the Penn Mutual Building in Washington Square. From the deck one has a panoramic view of "The Most Historic Square Mile in America."

We are planning to attend the Pennsylvania University and College luncheon in Washington, D.C. the first Saturday in February.

Our next regular meeting will be held at Wanamakers in Philadelphia the last Saturday in February.
